**You are welcome to
the remote video
proctoring solution**

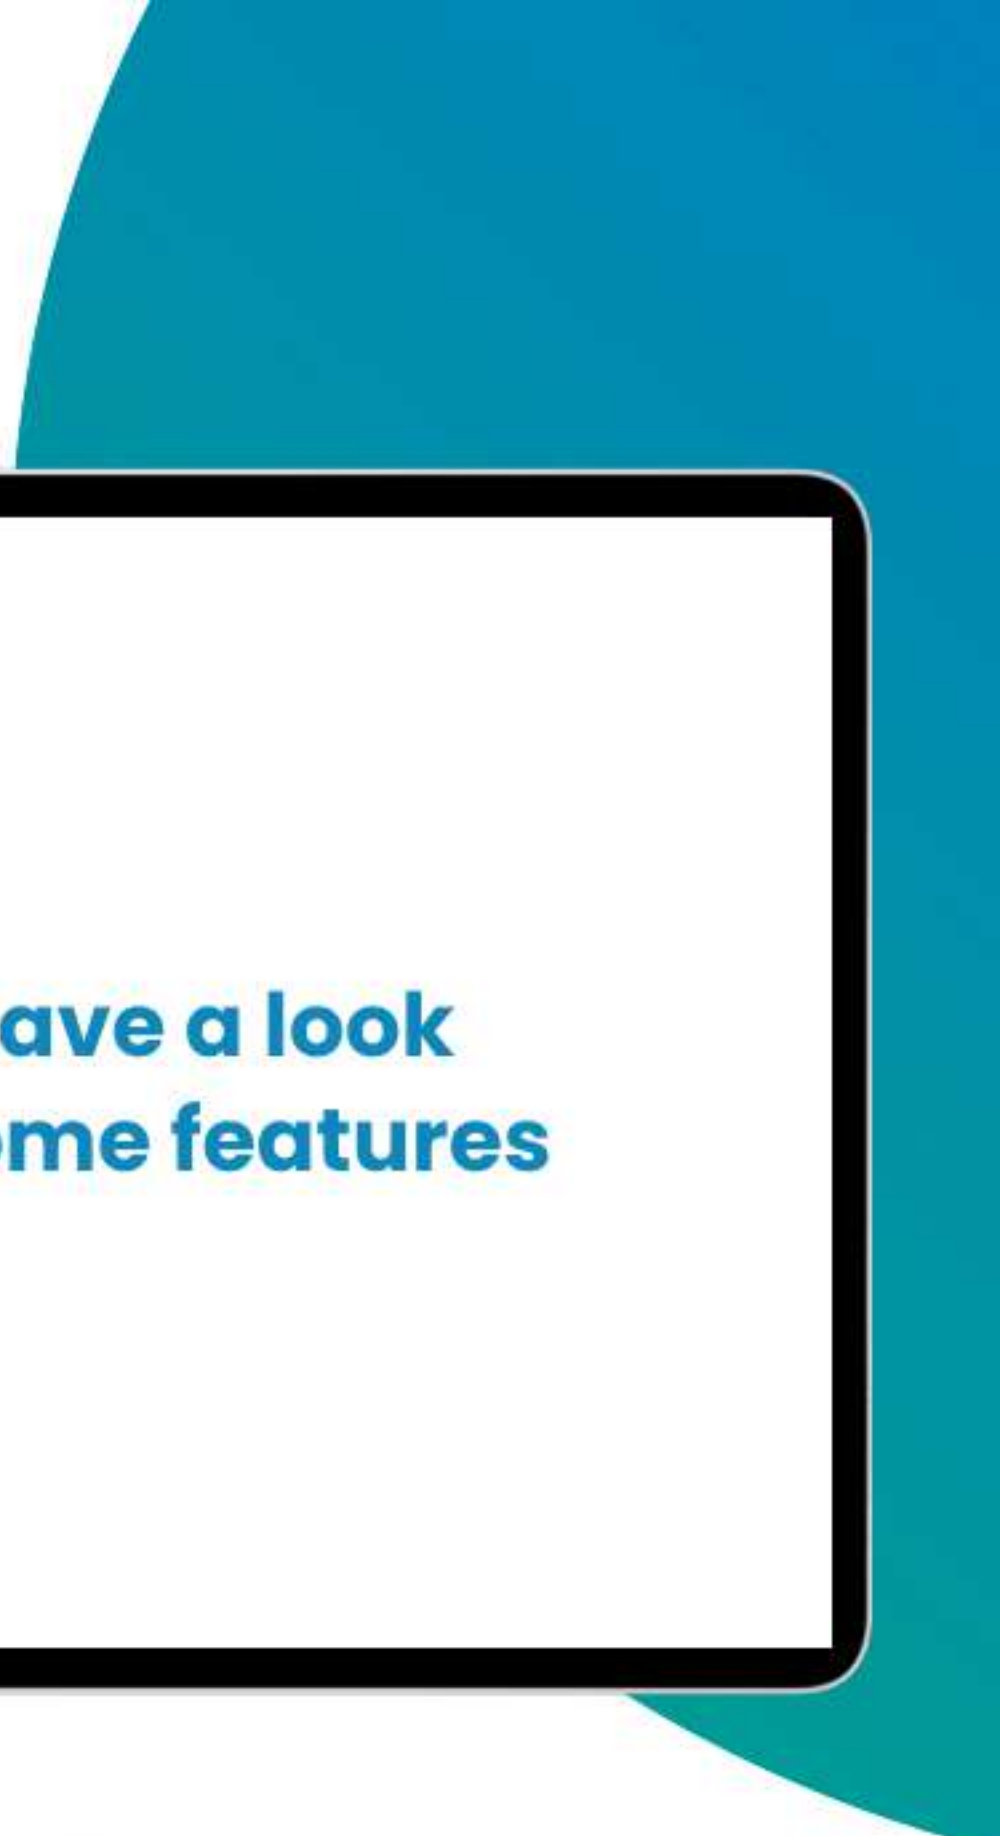

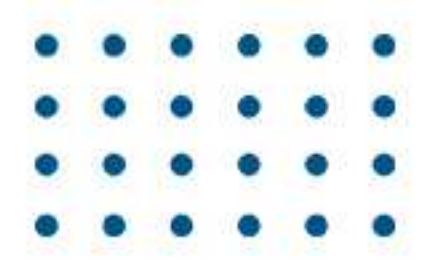

Let's have a look at what exactly does it mean. Online proctoring software helps organizations monitor test-takers remotely during online exams. It enables administrators of online assessments to create a more secure testing environment by and preventing instances of academic dishonesty. Test administrators use proctoring software to verify test takers' identities and monitor examinee behaviour during the test. These platforms make it possible for test-takers to complete exams at home using their computers instead of at an in-person testing centre. Online proctoring platforms are used by a range of organizations that deliver exams online.

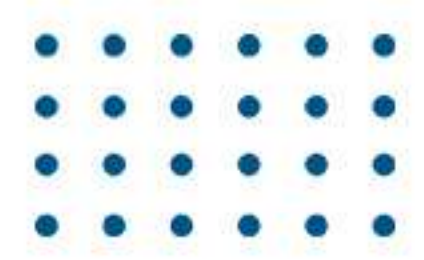

**Have you ever
heard about remote video
proctoring solutions?**

Making ground to develop a web app and desktop app that can provide an online examination with students. Explore everything you would like to understand about online exam proctoring, including the most important features of online remote proctoring.

**Let's have a look
at awesome features**

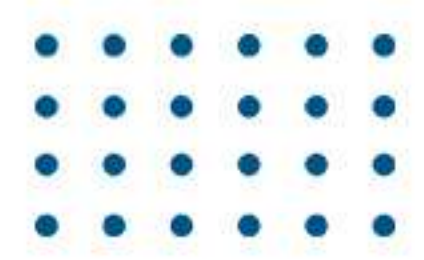

Revolutionize your online program with a modern testing experience with:

- Automated proctors approach
- Online exam proctoring software
- Available, affordable and accessible
- Online remote proctoring service
- Online examination monitoring software
- Advanced automated remote proctoring software
- Reliable solution for online assessments platform
- Intuitive design
- Secure stream
- Online exam monitoring and remote invigilation

Features

Have a look at the benefits of the secure test-taking solution. As more universities and colleges are using remote learning and online exams, the need for online proctoring is increasingly important. But do you know what are the key benefits of online proctoring and why is it important to institutions, faculty, and students?

Secure test-taking solution

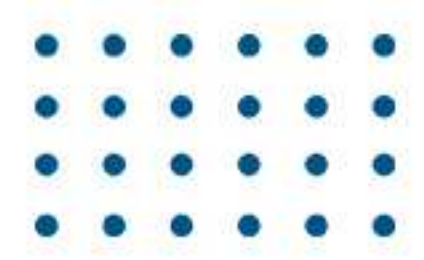

We offer you the topmost benefits of online proctoring

- Verifies student ID

- Proctored testing removes the administrative burden on test centres
- Students can schedule online exams 24/7/365
- Affordably scales to your institution's needs

**Benefits of remote
video proctoring solution**

The Complete multi-module digital examination solution we are an AI-enabled automated proctoring solution that uses advanced machine and deep learning algorithms combined with strong security and live video recording for ensuring the highest levels of integrity in online examinations.

Over 100+ institutions put their reputations in our hands. We are providing an experience next-generation examination proctoring solution.

Why to choose us?

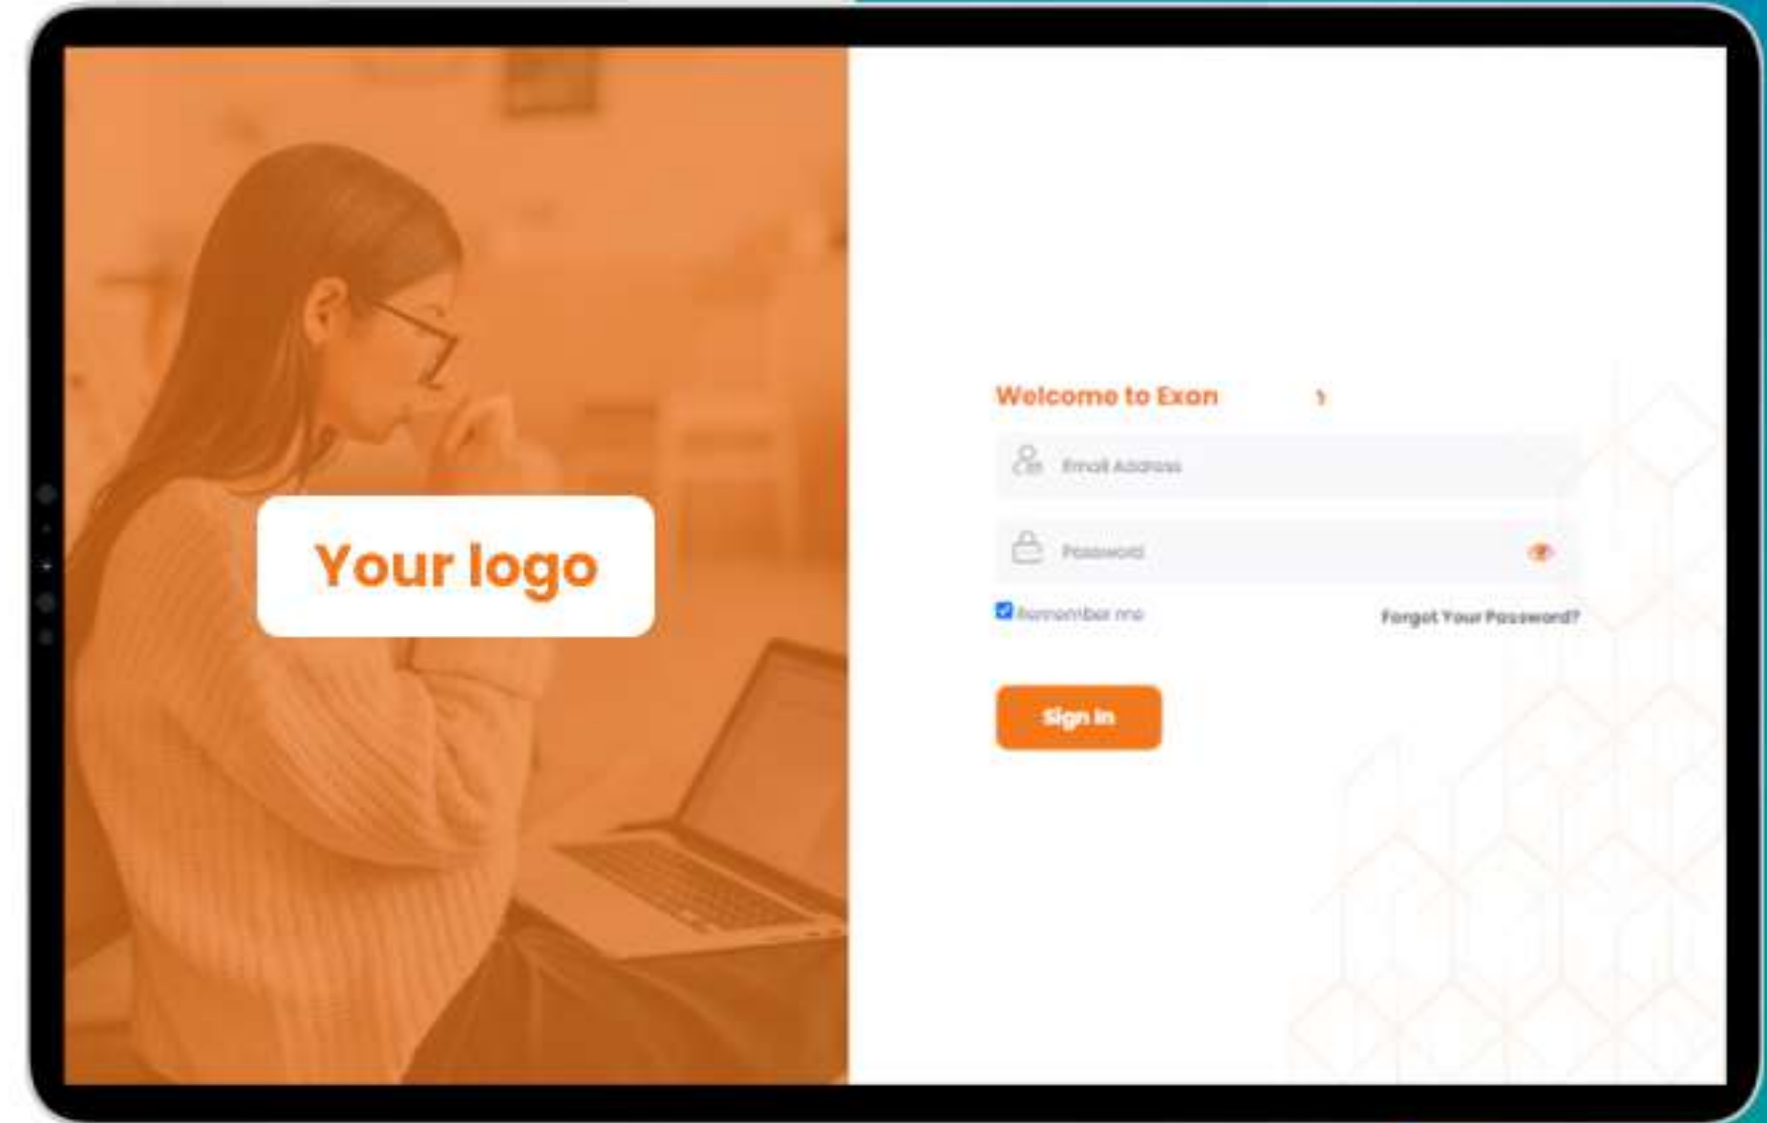

Super Admin

Login

We are excited to let you know about our latest software. Register yourself as a super admin or login into the existing account.

Who manages everything in the software. They handle and manage all the institutes, colleges, schools and other's admin panels under their observation. Only super admin can provide the URL to a particular institute/college/school's admin panel under which, that institute can get the exam conducting URLs for each student.

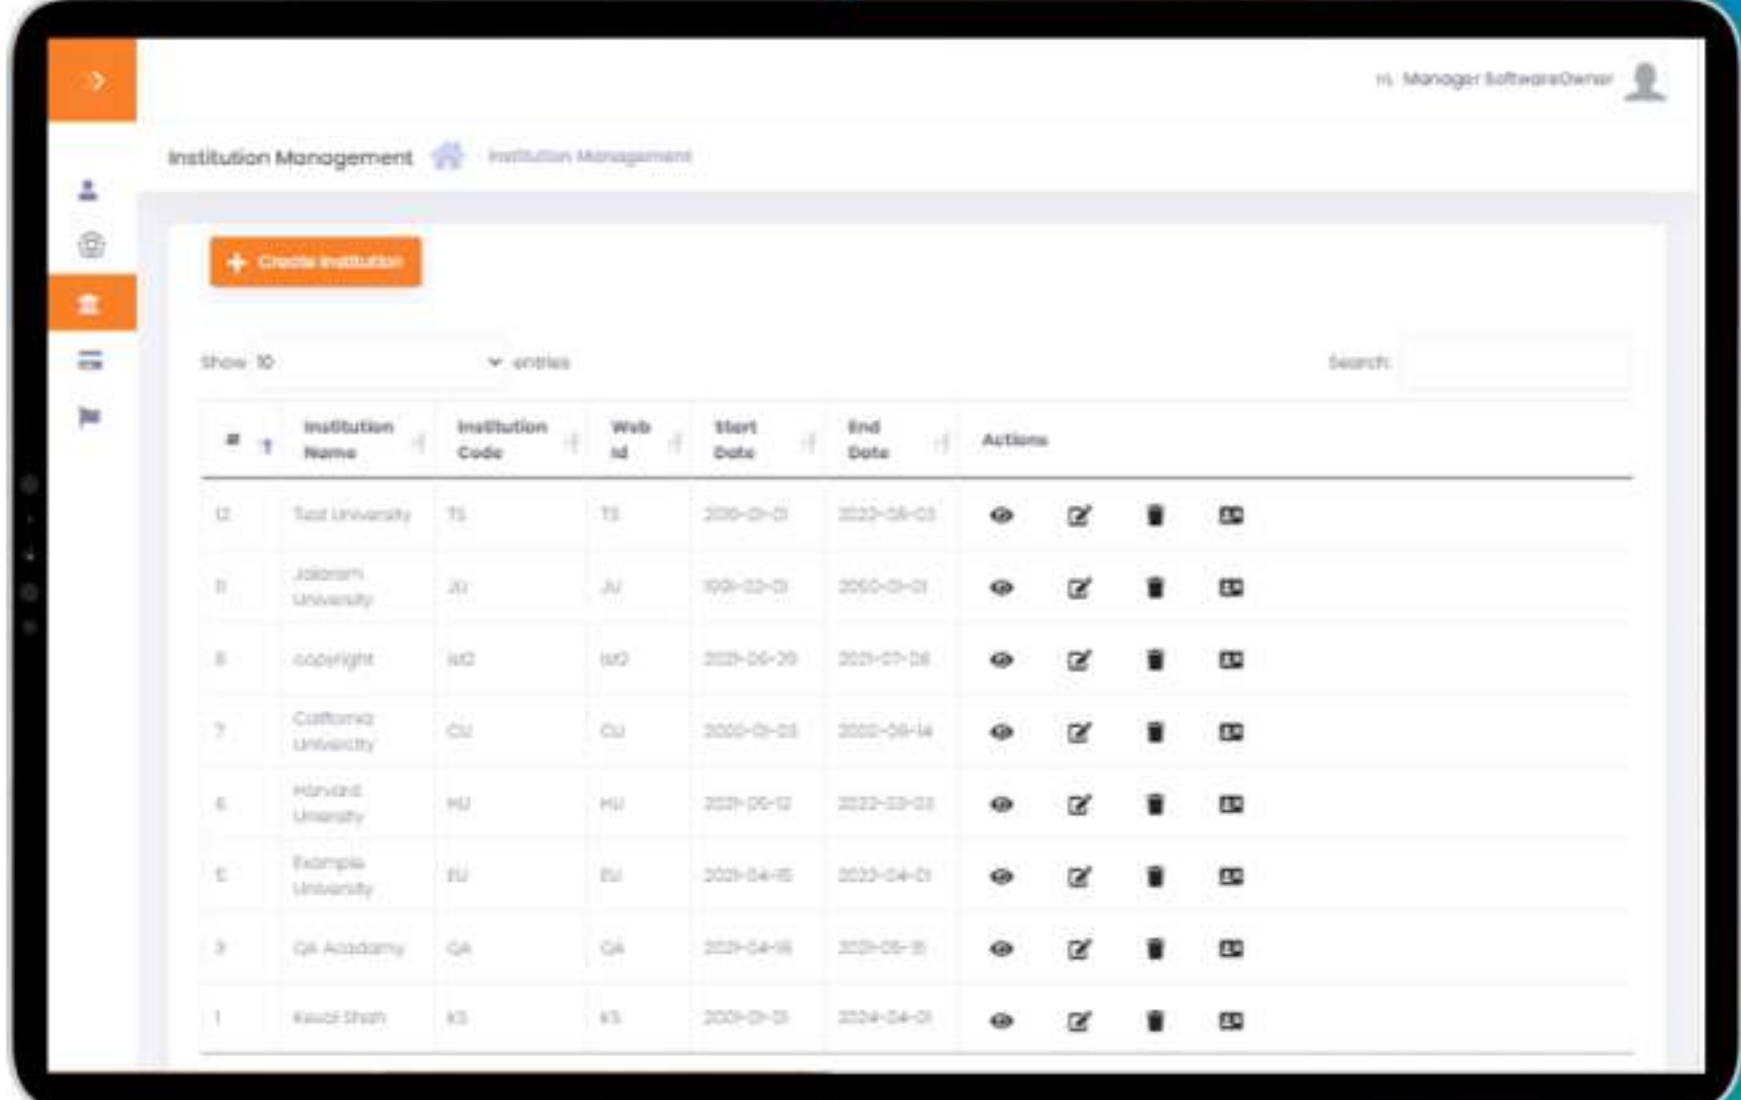

Dashboard

Let's have a look at the amazing functionality of super admin.

The super admin dashboard, where you get an option to create a new institute i.e option to create a new admin panel.

The table shows the entries of existing institutes (admin panel) with deep details like name, code, ID, duration and lastly, there is an option to view details add something or permanently remove the institute from the department.

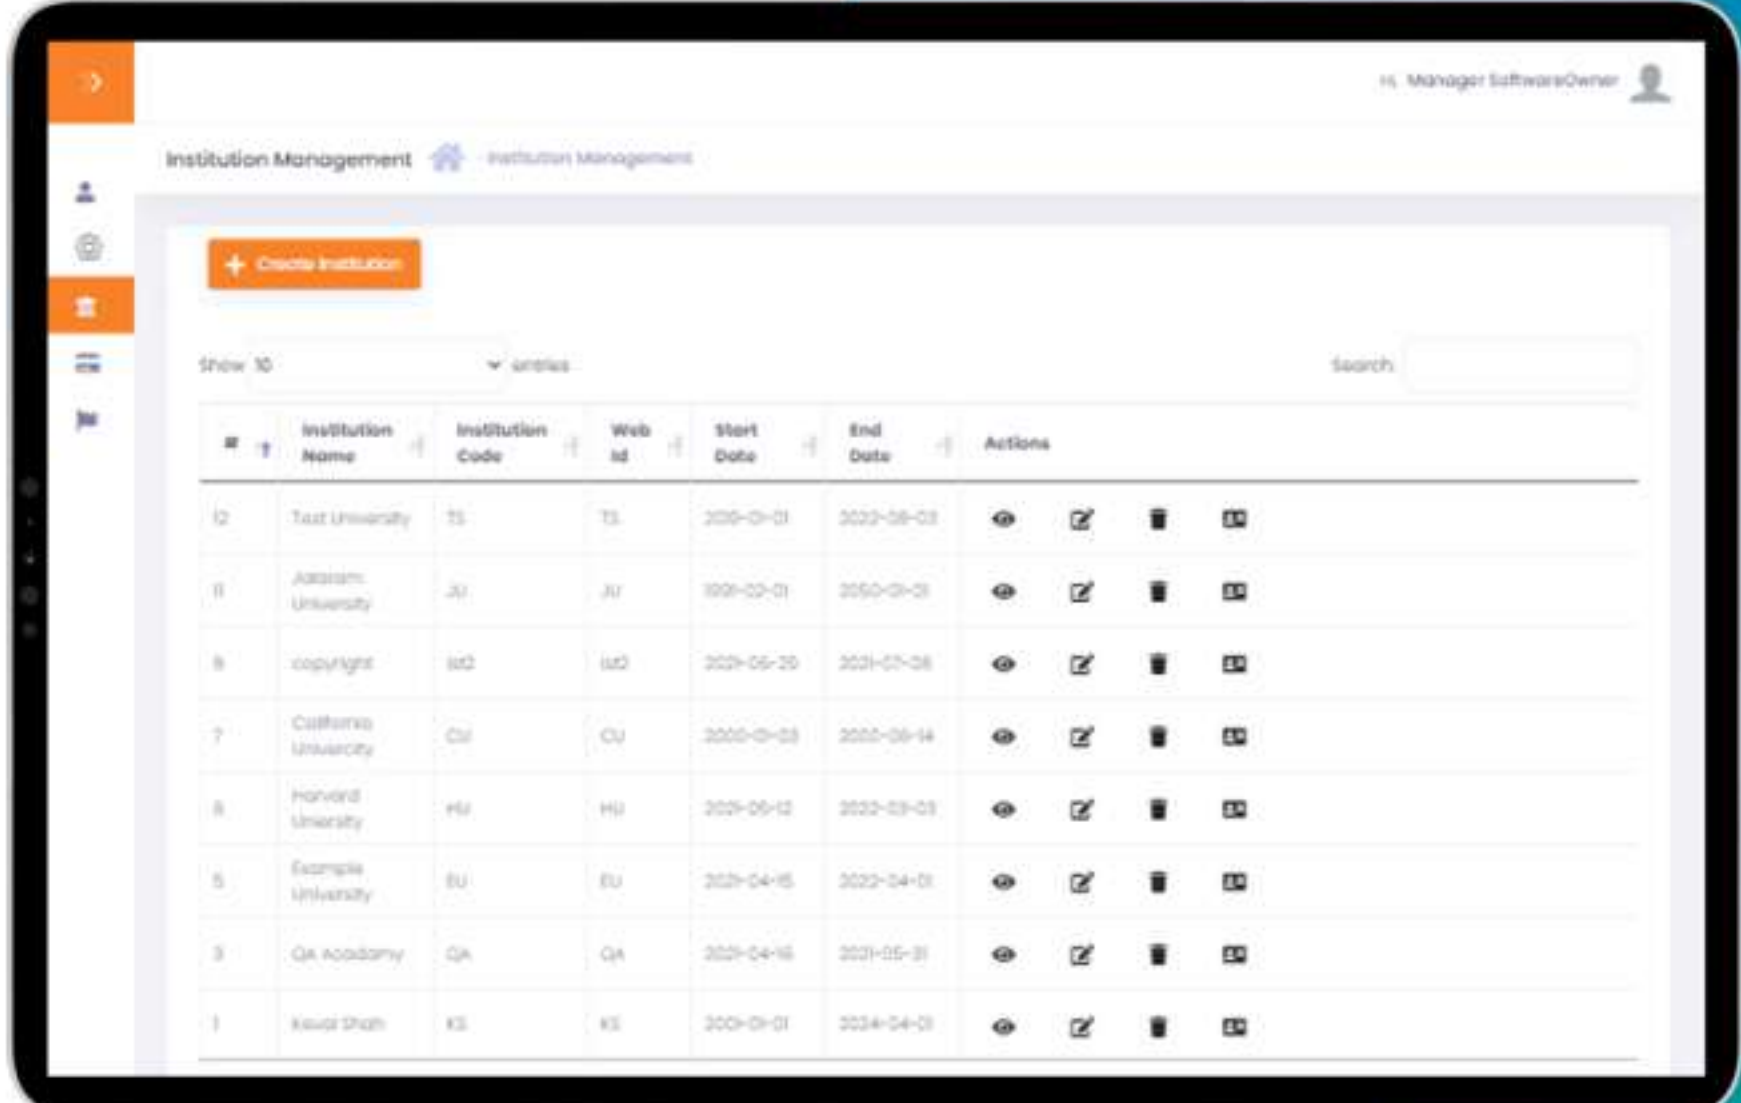

The screenshot displays a web dashboard titled "Institution Management". At the top right, the user is identified as "M. Manager SoftwareOwner". The main content area features a "Create Institute" button and a table of existing institutes. The table has columns for ID, Institution Name, Institution Code, Web Id, Start Date, End Date, and Actions. The actions column includes icons for view, edit, delete, and a lock icon. The table lists 10 institutes, including "Test University", "Jalisco University", "Copyright", "California University", "Harvard University", "Example University", "GA Academy", and "Kavir Shah".

ID	Institution Name	Institution Code	Web Id	Start Date	End Date	Actions
12	Test University	TS	TS	2000-01-01	2022-08-01	View Edit Delete Lock
11	Jalisco University	JU	JU	1999-02-01	2020-01-01	View Edit Delete Lock

User management

Here is the option to add a new user to the super admin panel by adding common details such as name, email, role, status and lastly have an option to view existing users details. Action buttons include edit, activate, view and remove options.

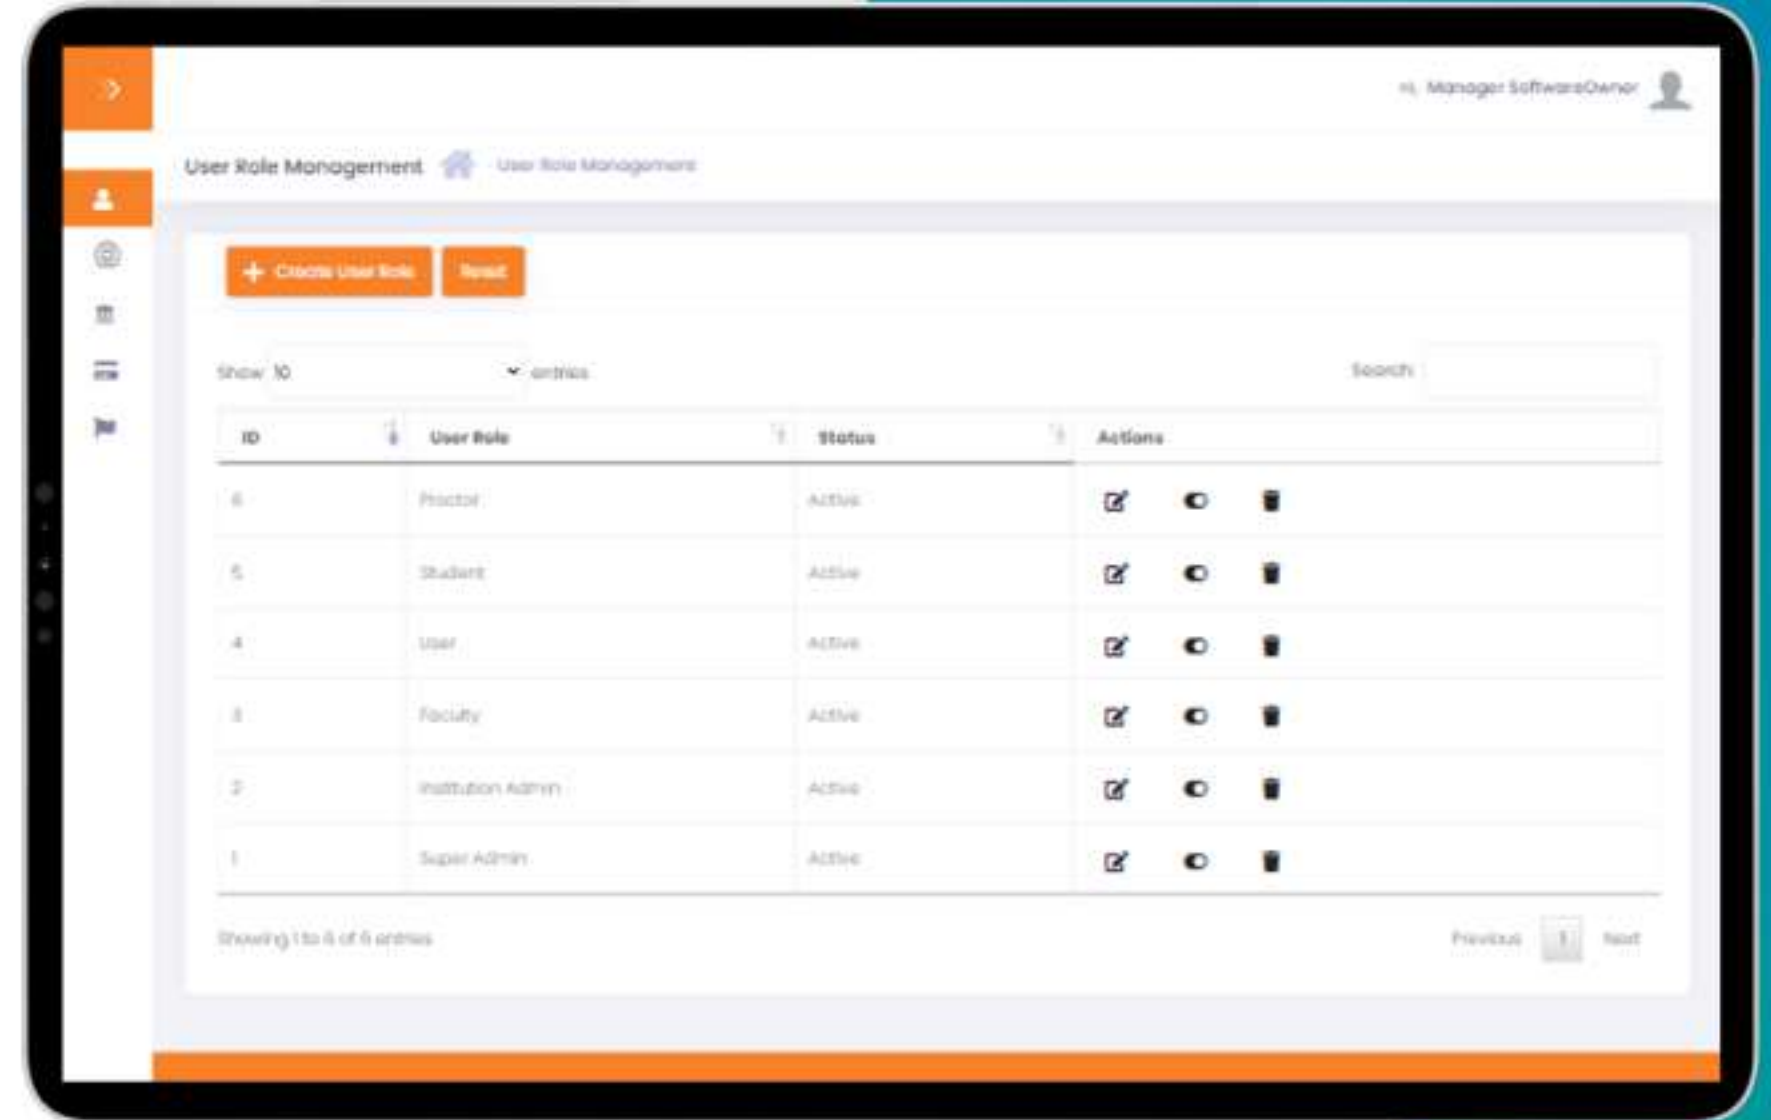

User role

On other side, the user role management option is also available to see the user details according to their role.

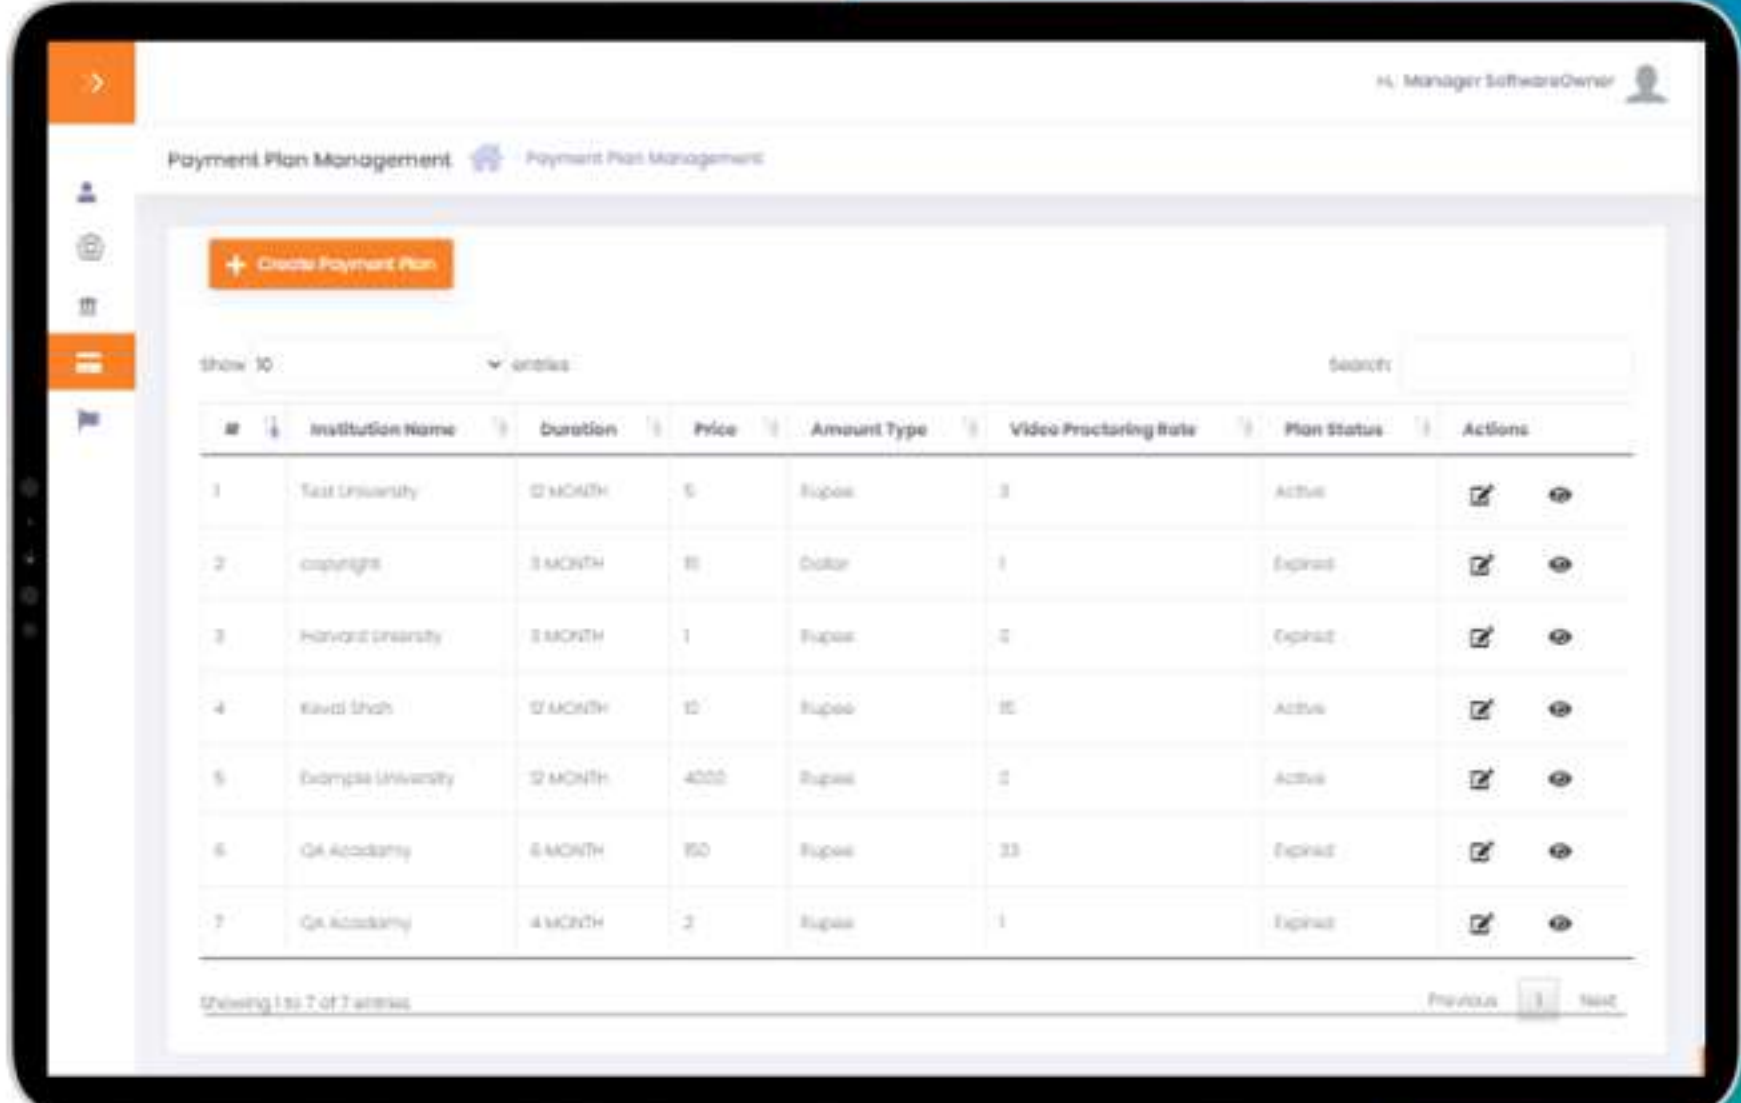

New role module and action details include:

- User role
- Site configuration
- Institution management
- Payment management
- Tag management
- Question bank
- Learner launch
- Class master
- Active students
- Inactive students
- Country management
- Test master
- Exam master
- Download exam software

Payment plan management

So here is the most important function of our software. It shows particular admin's payments managements such as institution name, duration, payment and payment-mode, rate of video proctoring, working status and lastly action buttons for edit and view.

Payment Plan Management

Search

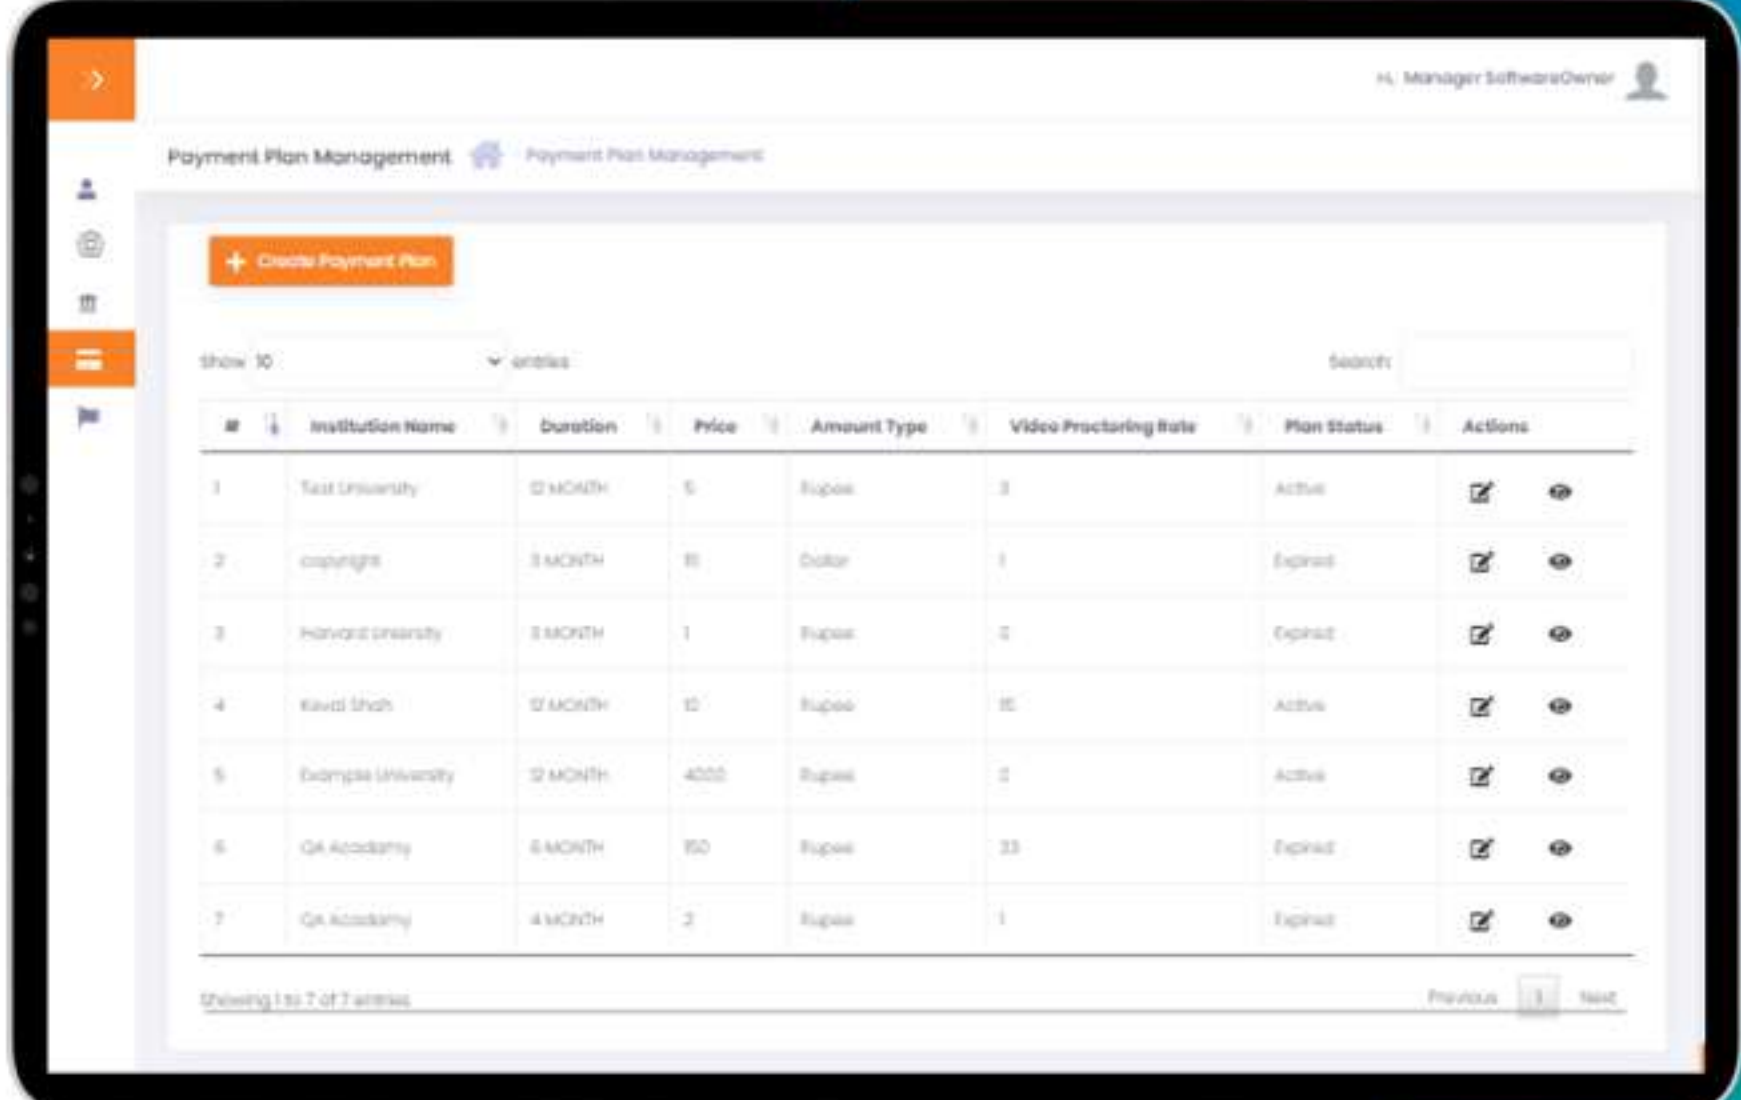

Showing 1 to 7 of 7 entries

#	Institution Name	Duration	Price	Amount Type	Video Proctoring Rate	Plan Status	Actions
1	Test University	12 MONTH	5	Rupia	3	Active	✎ 👁
2	Copyright	3 MONTH	8	Dolar	1	Expired	✎ 👁
3	Harvard University	3 MONTH	1	Rupia	0	Expired	✎ 👁
4	Khalid Shah	12 MONTH	10	Rupia	8	Active	✎ 👁
5	Example University	12 MONTH	4000	Rupia	0	Active	✎ 👁
6	Ga Academy	6 MONTH	50	Rupia	33	Expired	✎ 👁
7	Ga Academy	4 MONTH	2	Rupia	1	Expired	✎ 👁

Add payment Plan

By clicking on the create a payment plan, you will reach here.

Start your payment plan with the name and duration. Then choose the plan type whether it is “per student per year” or “per student per exam”. Add the cost of plan, amount type, video proctoring rate and deposit details. Click on the save button to update the payment plan. We are having many other functions as a super admin panel for remote video proctoring solutions.

The screenshot displays the 'Payment Plan Management' interface. At the top, there is a navigation bar with a user profile icon labeled 'H. Manager SoftwareOwner'. Below the navigation bar, there is a search bar and a 'Create Payment Plan' button. The main content area features a table with the following columns: #, Institution Name, Duration, Price, Amount Type, Video Proctoring Rate, Plan Status, and Actions. The table contains 7 rows of data. At the bottom of the table, there is a pagination control showing 'Showing 1 to 7 of 7 entries' and 'Previous' and 'Next' buttons.

Admin Panel

Login

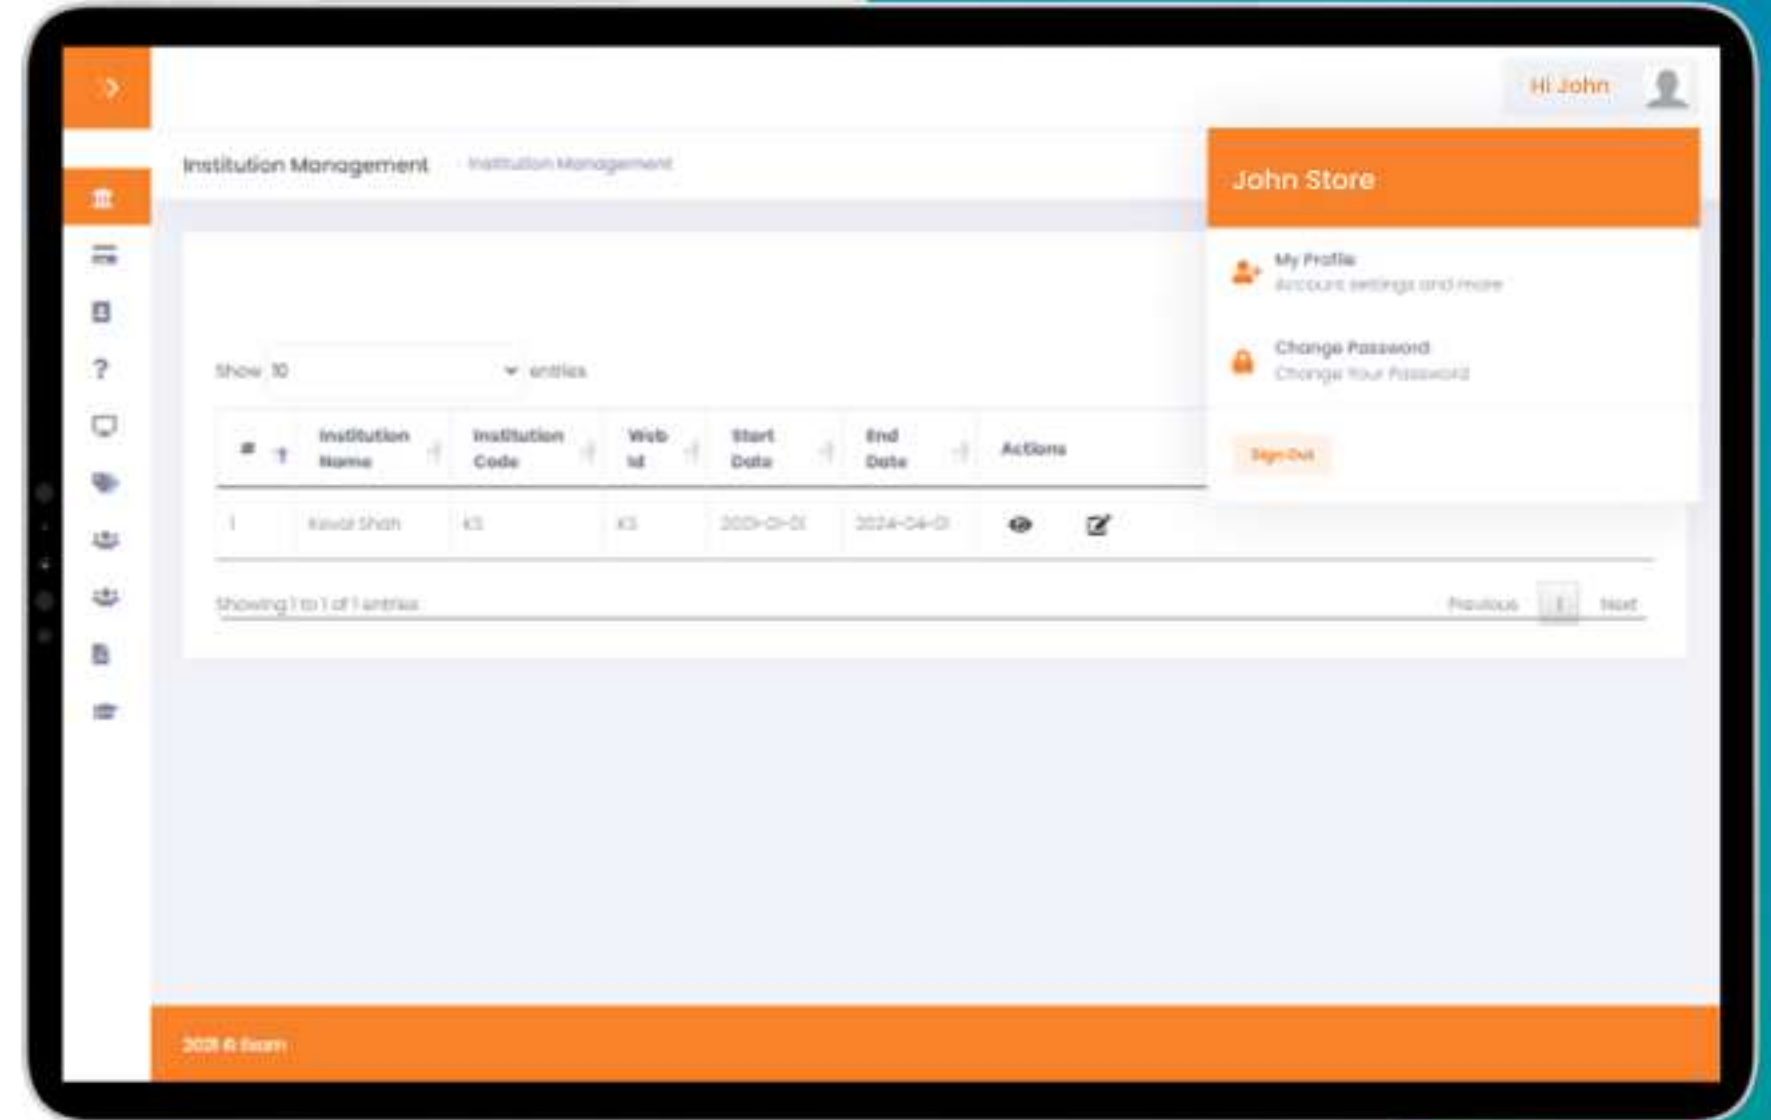

Welcome to the admin panel/institute admin.

Register yourself as an admin or login into the existing account.

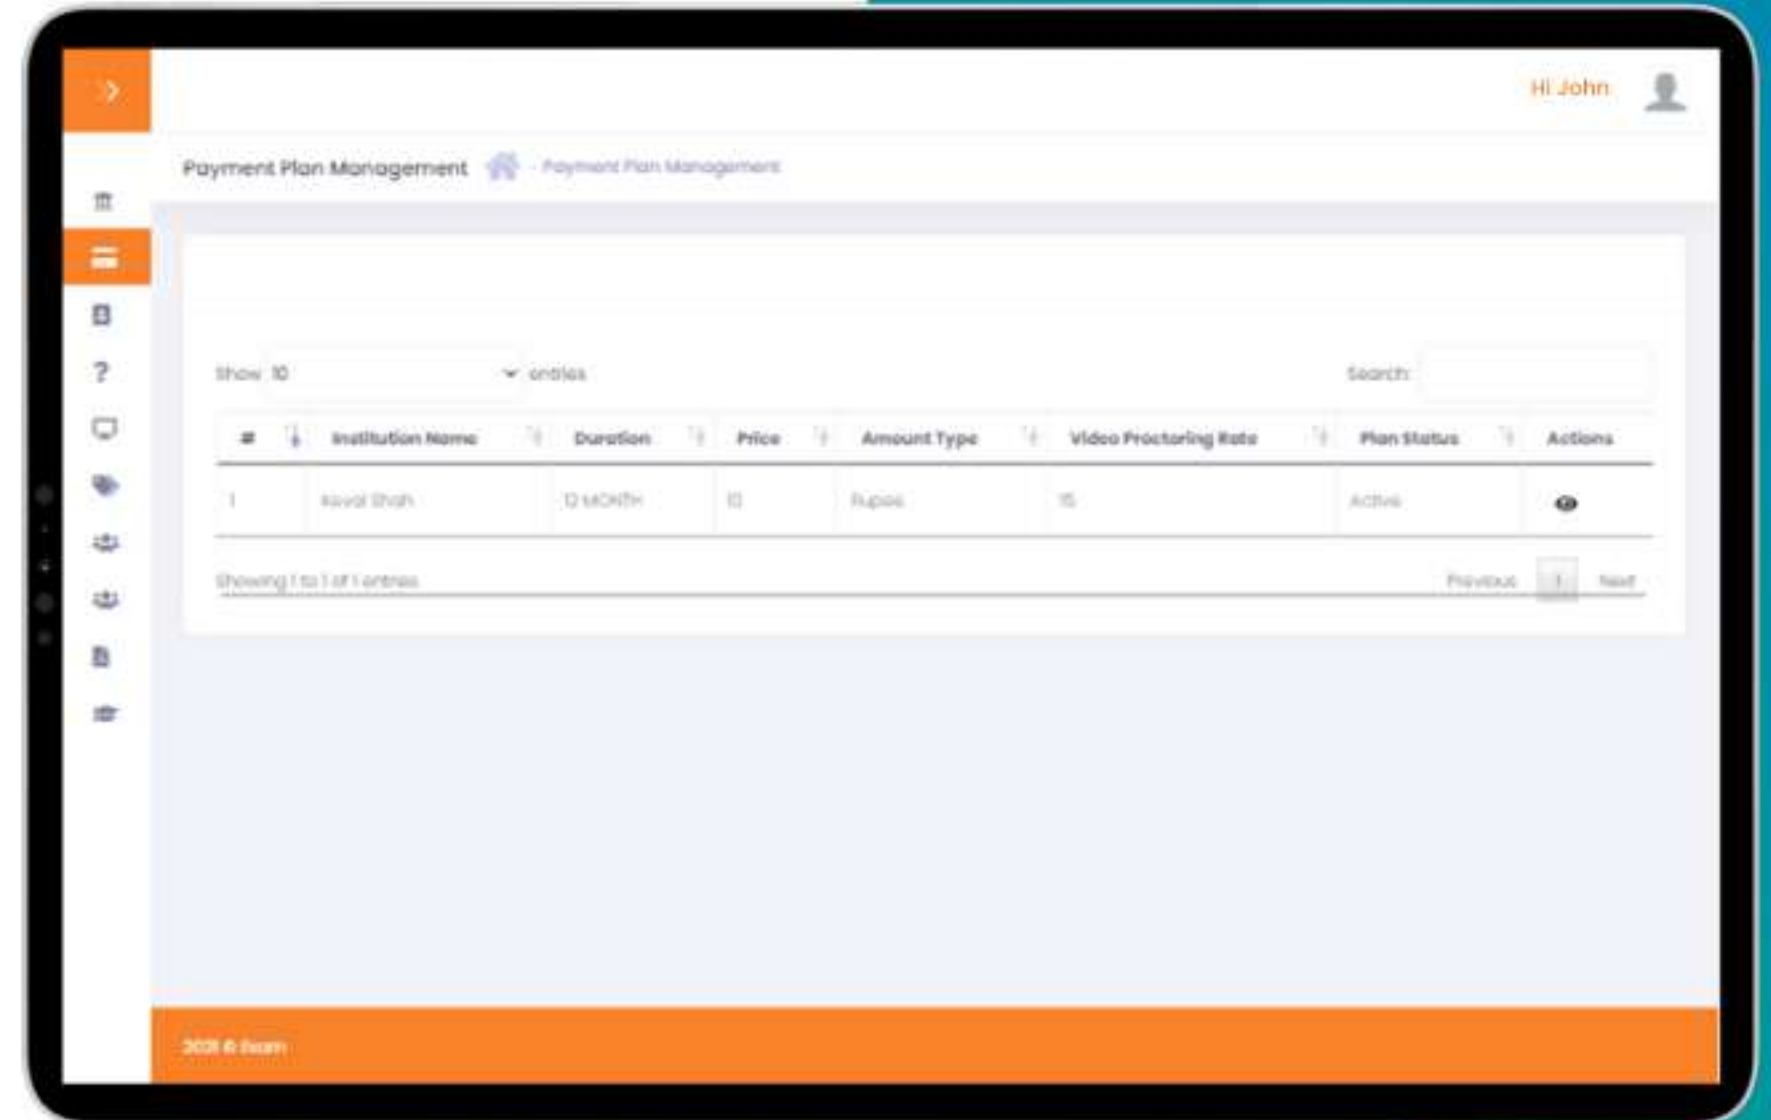

Dashboard

The admin dashboard, where your institute's details are mentioned. Admin also has the authority to make any changes according to the institute updates.

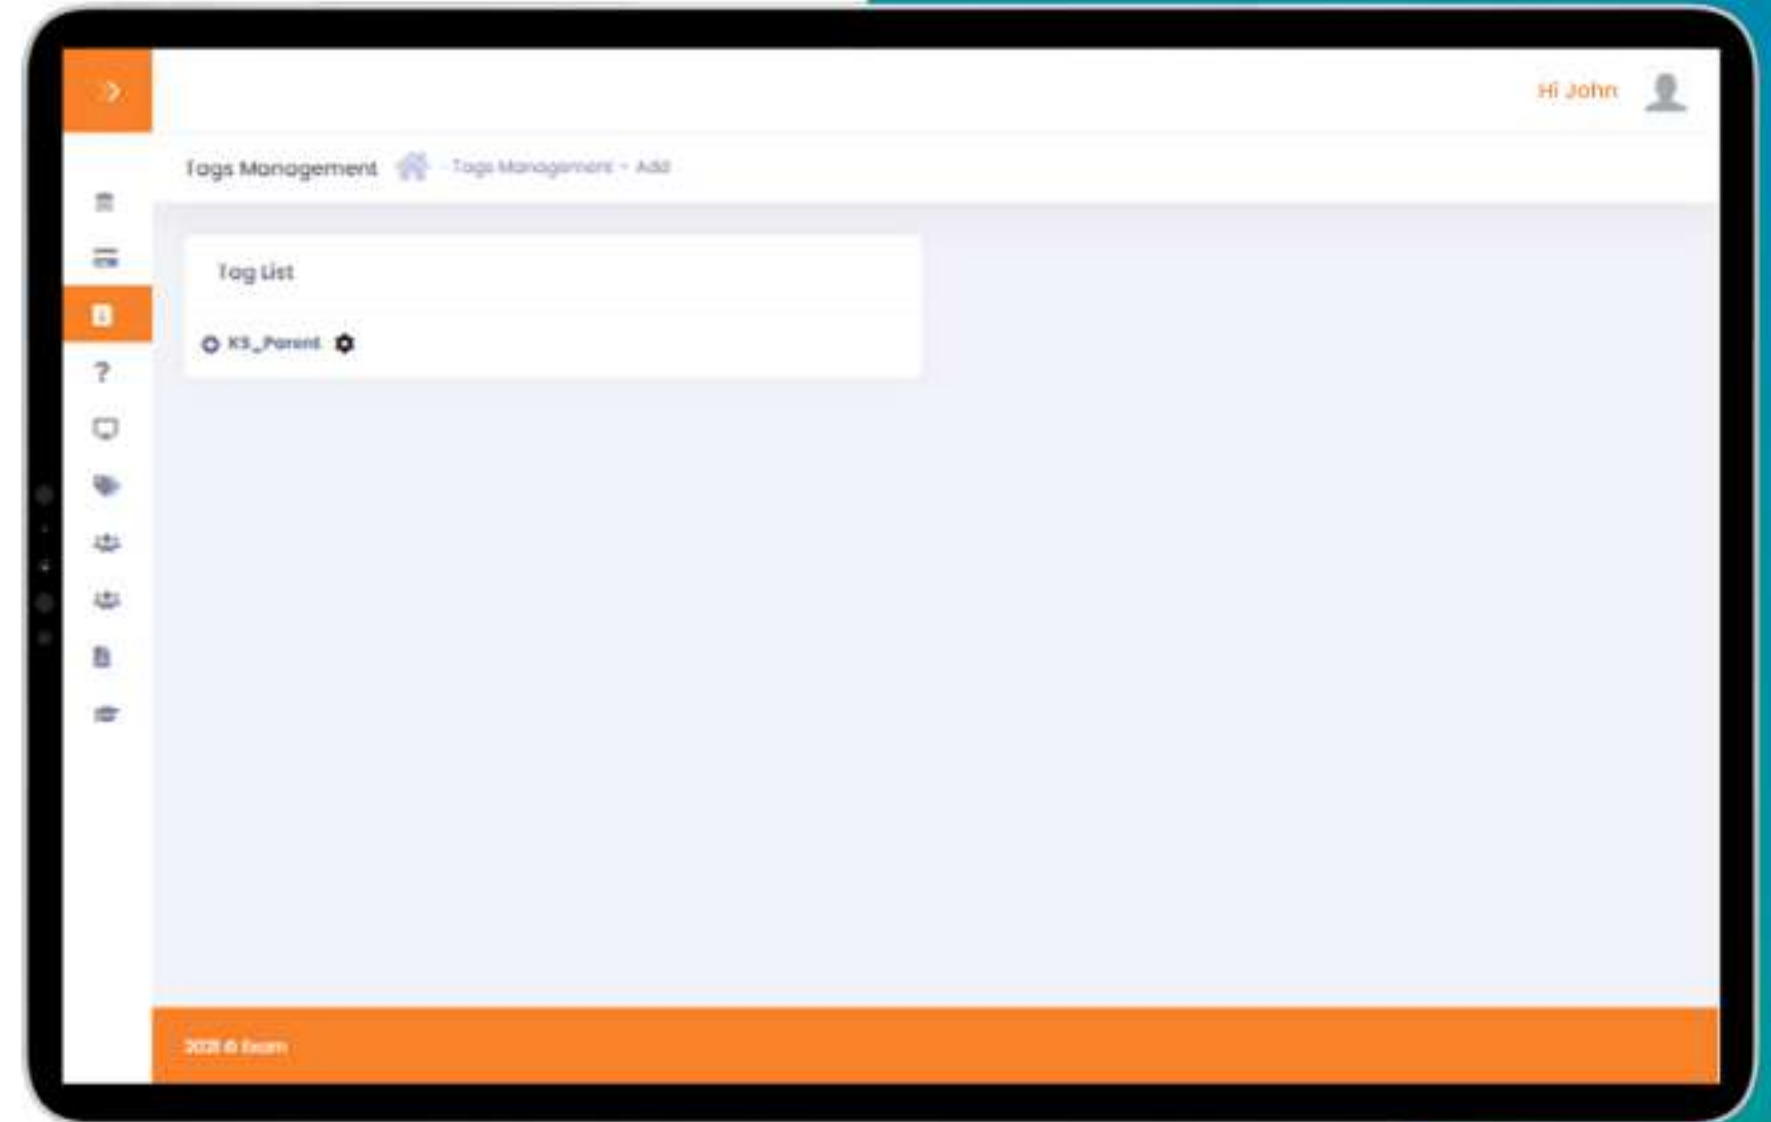

Payment plan management

Admin can see the institute's payment history here with the details like duration, price, amount type, video proctoring rate, plan status; but does not make any changes.

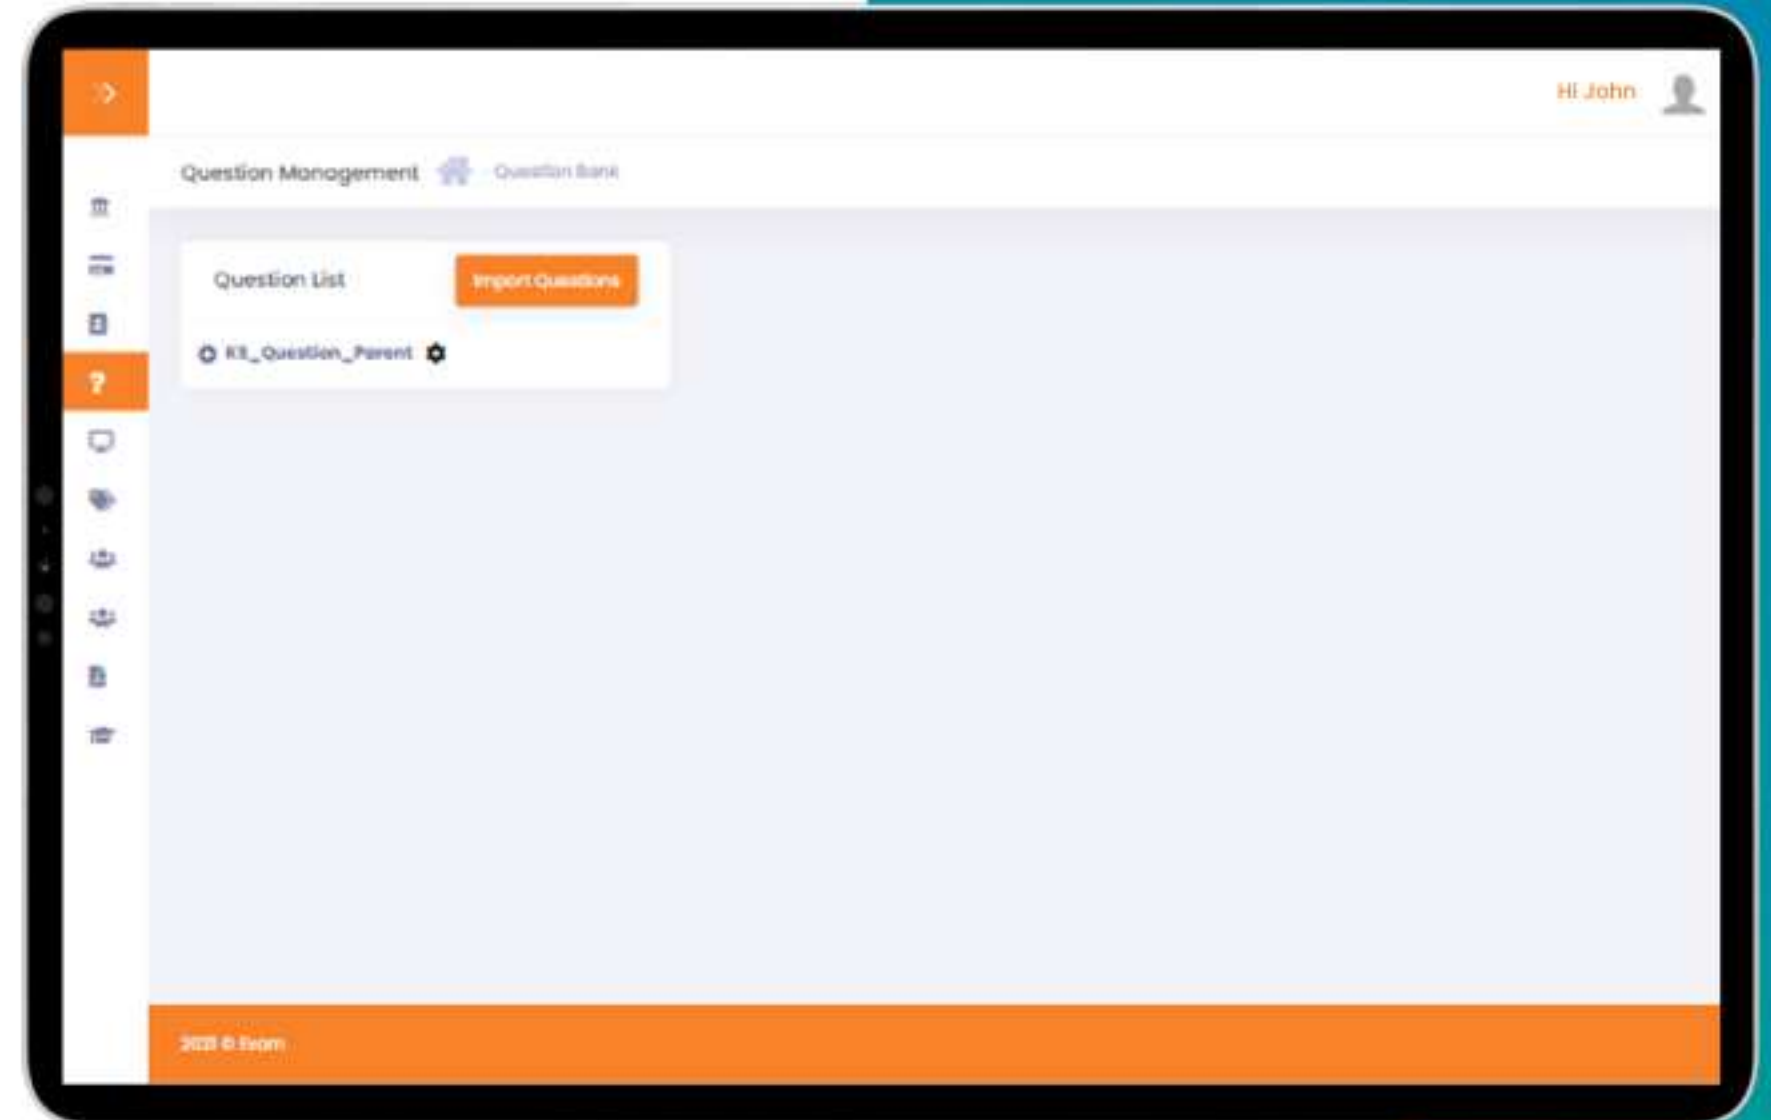

Tags management

Tags folder can be created for the student test management system, and tags can be named as per the courses category name or something which is related to the student's tests.

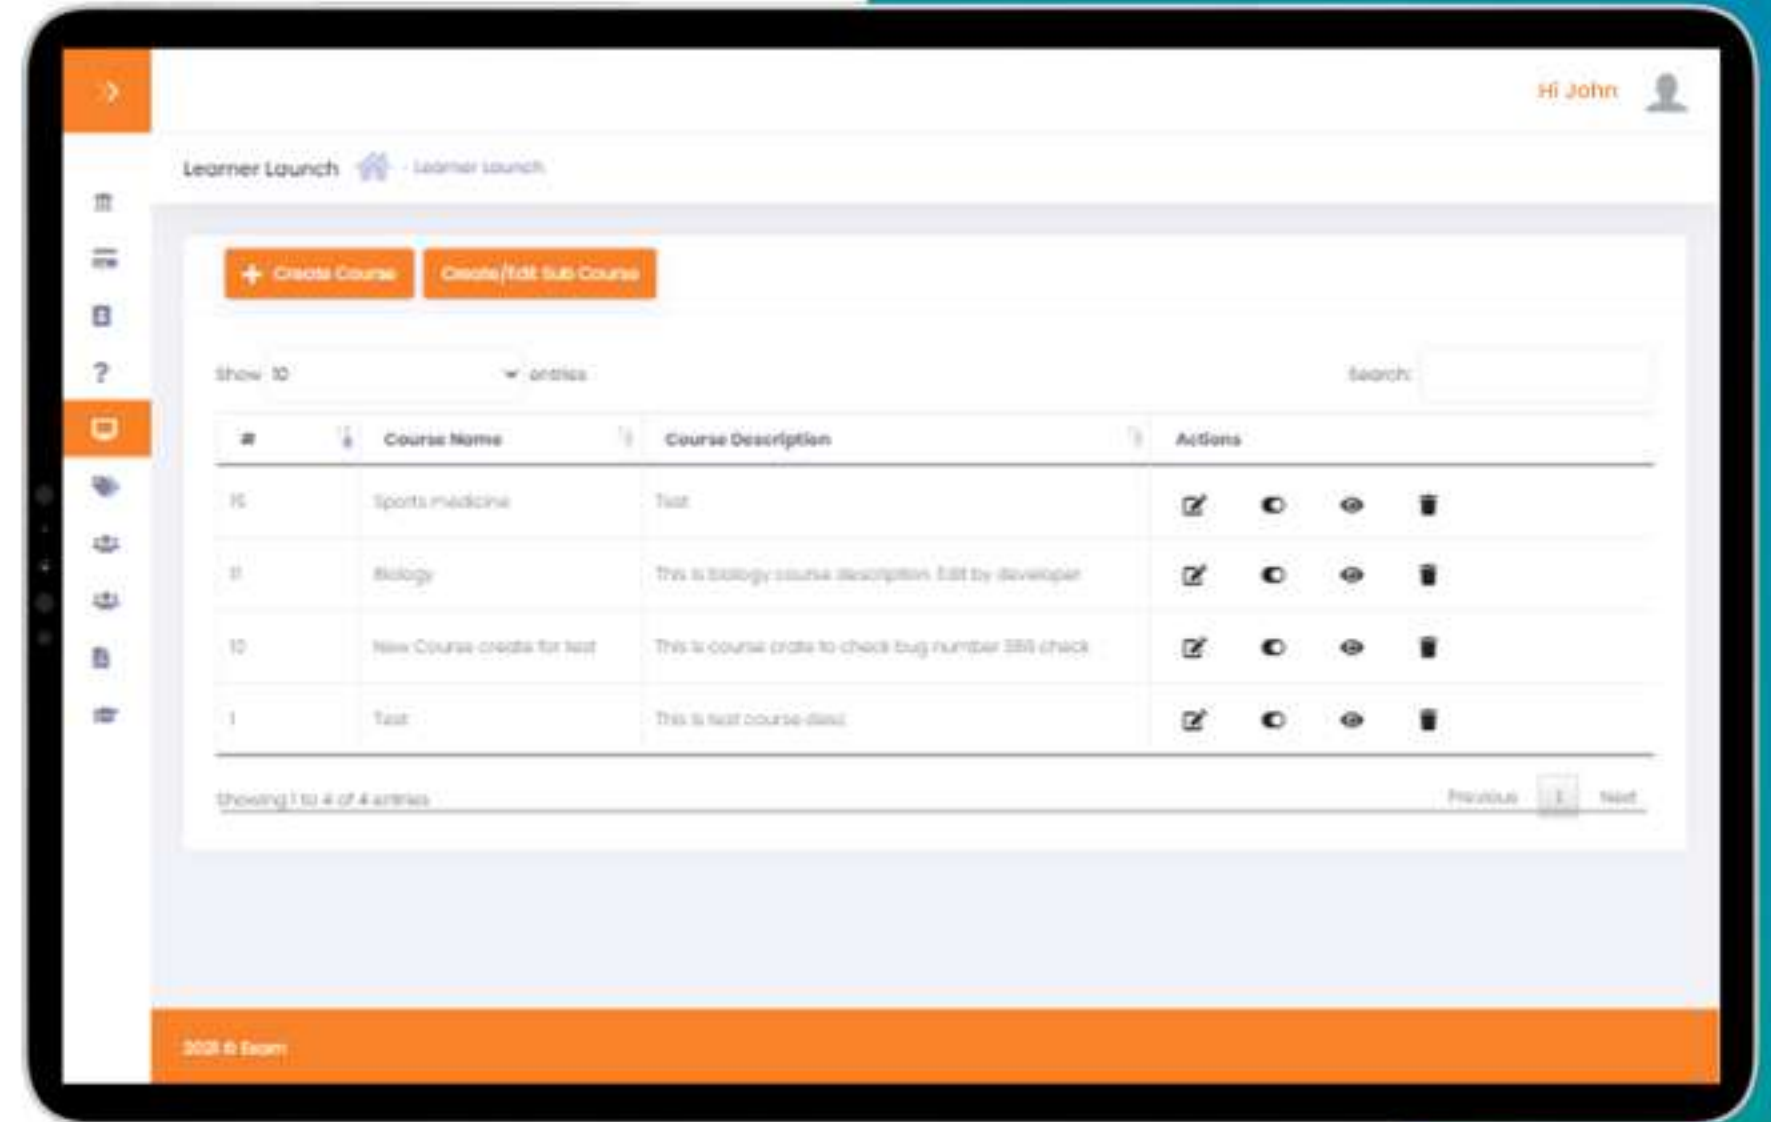

Question management

Institute's admin can create tests from the question bank according to the list. From here, the admin can import ready question files or can download the same. In question bank management, admin can add the new questions as MCQ's (multiple-choice questions) and lastly, the correct answer should be added.

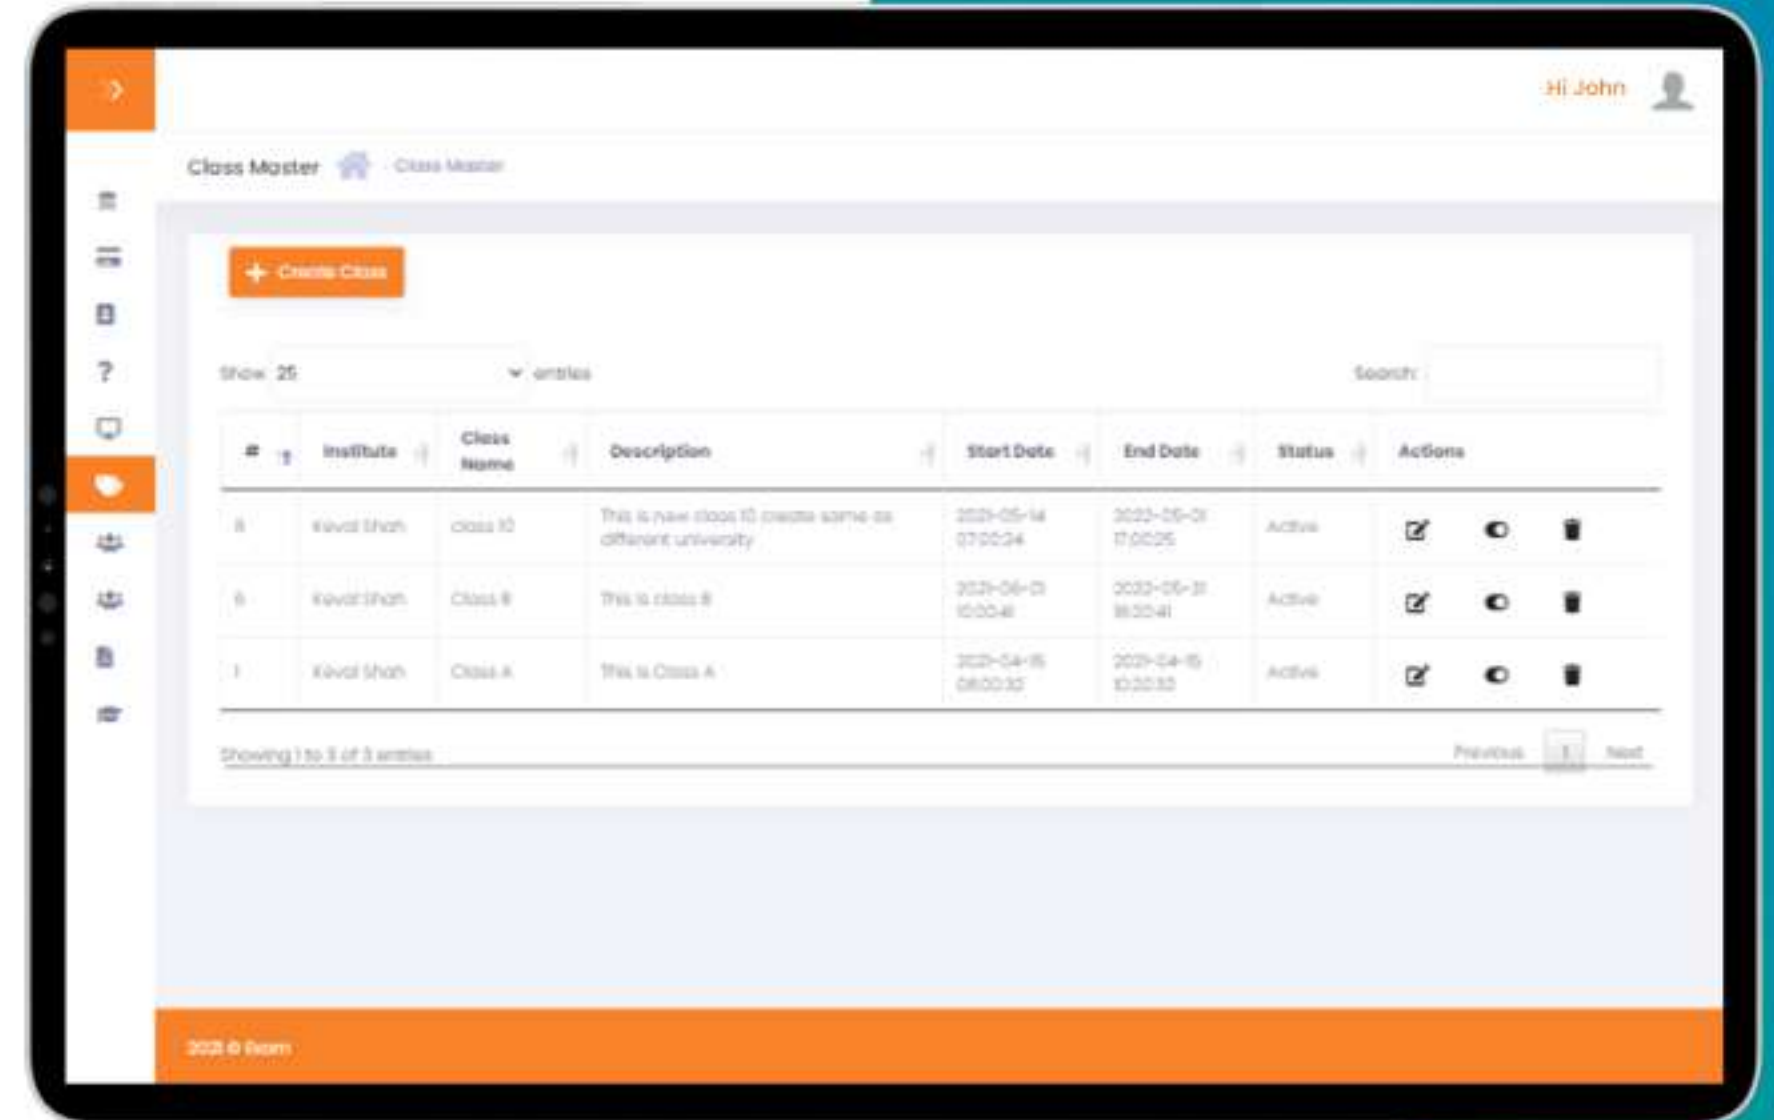

Learner launch

Here, new course and subcourse's details can be added by the admin with title, description, course URL and duration.

Class master

In this tab, the admin can divide the students according to the course. By creating a new class with the details like the course and class name, student list, description and duration. Existing classes detail is also shown here.

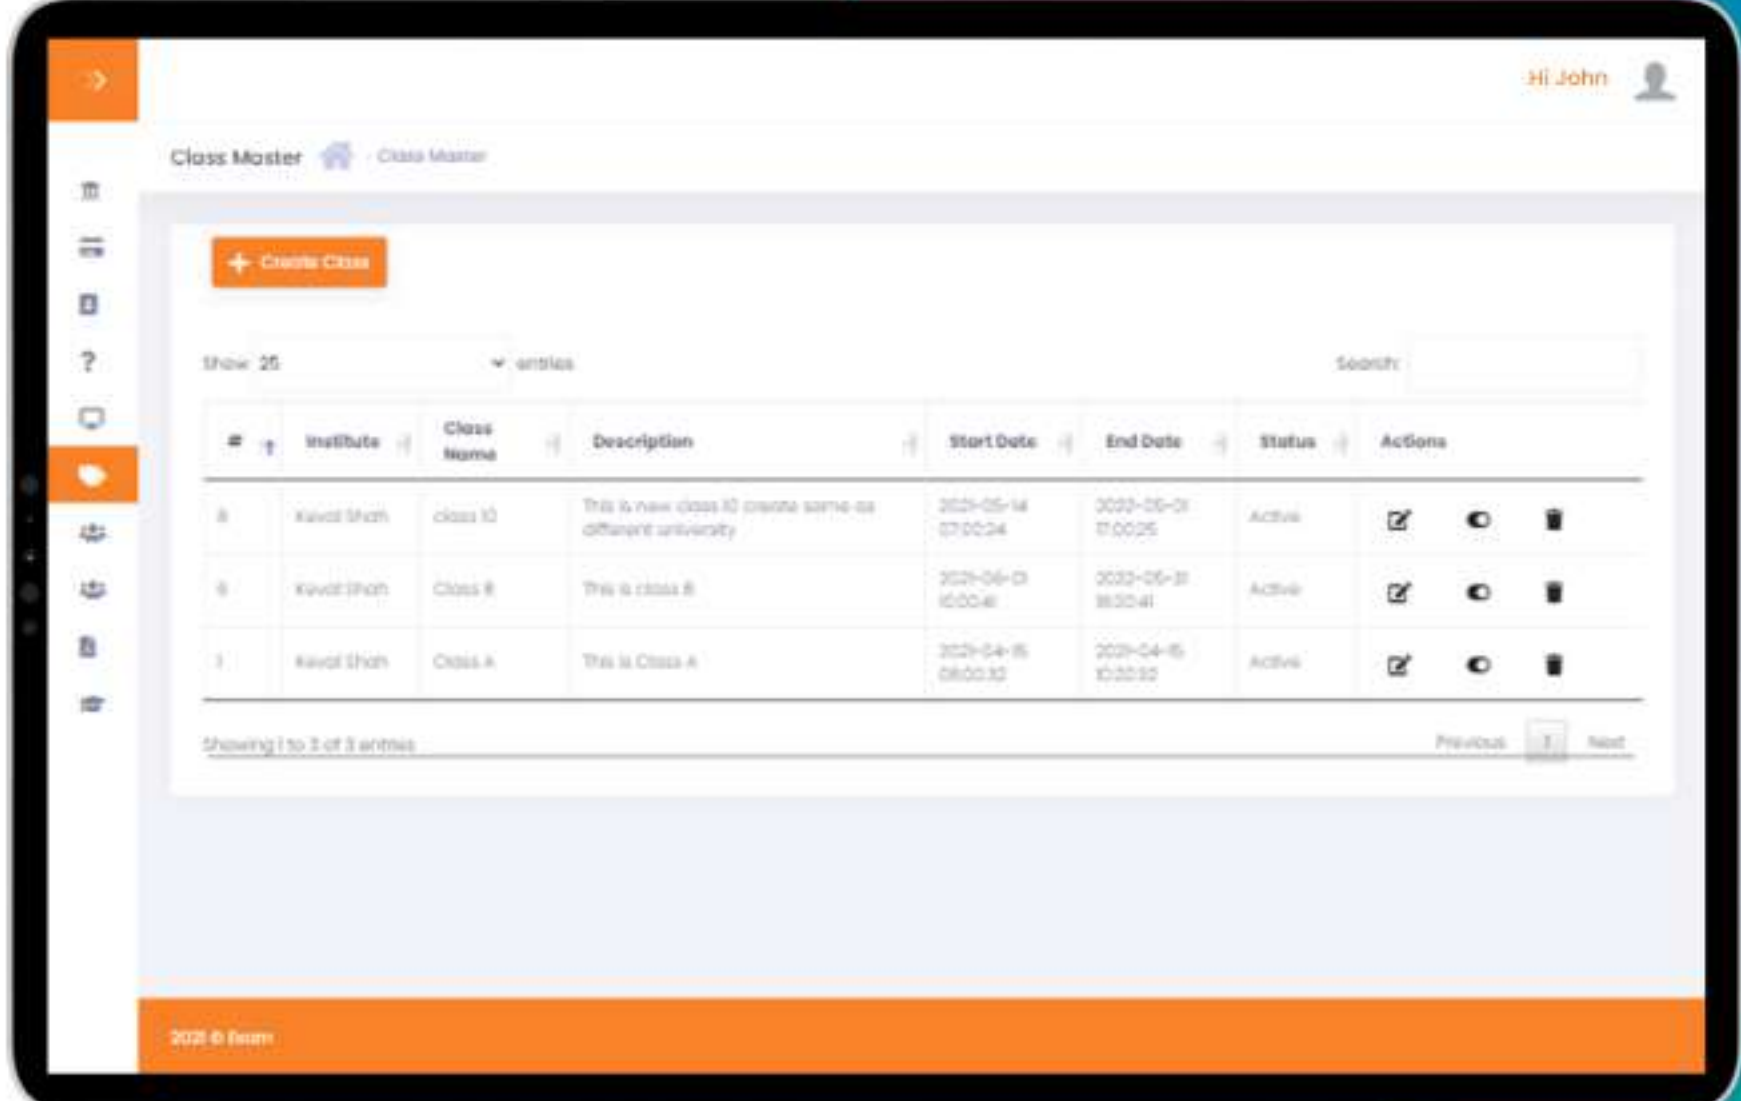

Active student list

A new student can be added from here. All registered active student lists with details can be shown here.

Import student detail, download sample files and export to pdf options are also available here.

That active can be converted into the inactive list as per institutes rules.

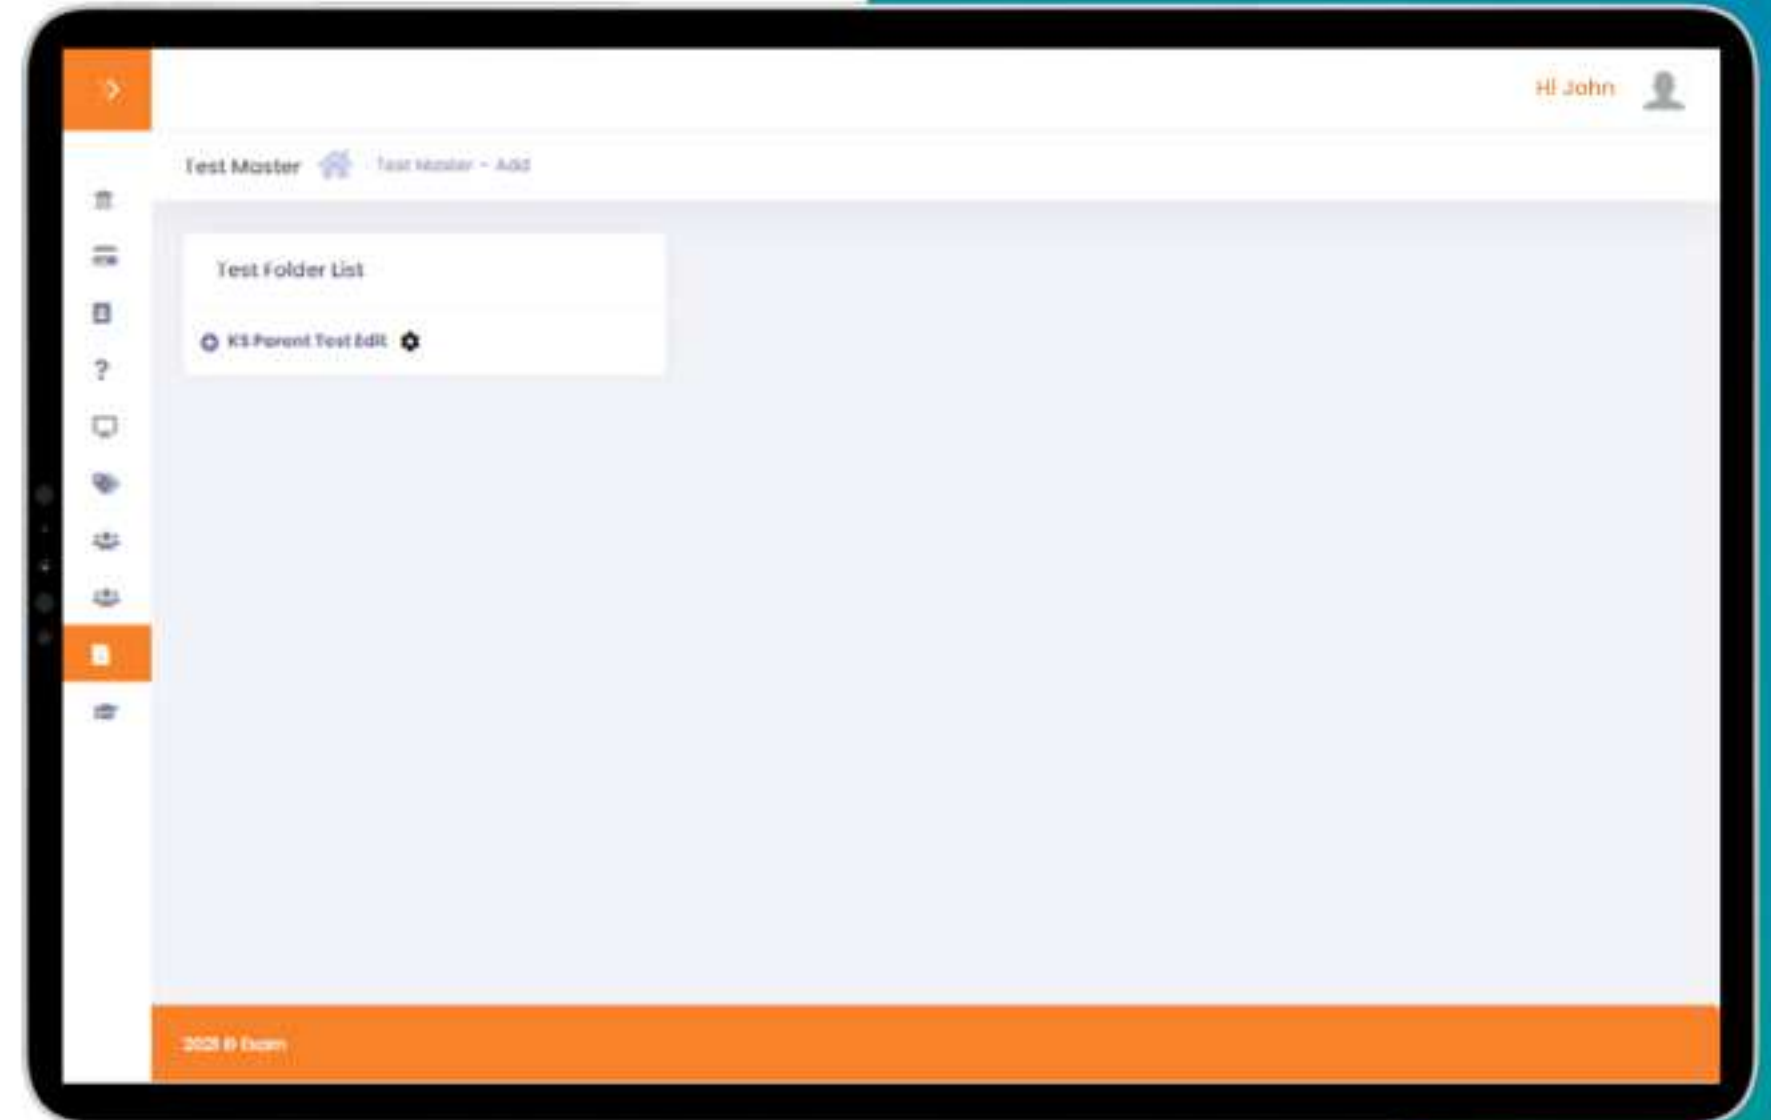

The screenshot displays the 'Class Master' web application interface. At the top right, the user is logged in as 'Hi John'. The main content area features a '+ Create Class' button and a table of active student lists. The table has columns for #, Institute, Class Name, Description, Start Date, End Date, Status, and Actions. Three entries are visible, all with a status of 'Active'. A search bar and pagination controls are also present.

#	Institute	Class Name	Description	Start Date	End Date	Status	Actions
8	Kavot Shoh	class 10	This is new class 10 please same as offhand university	2021-05-14 07:00:24	2022-05-21 07:00:25	Active	[Edit] [Toggle] [Delete]
9	Kavot Shoh	Class 8	This is class 8	2021-06-03 05:00:41	2022-05-21 08:00:41	Active	[Edit] [Toggle] [Delete]
1	Kavot Shoh	Class A	This is Class A	2021-04-05 08:00:32	2021-04-05 10:00:32	Active	[Edit] [Toggle] [Delete]

Showing 1 to 3 of 3 entries

Test master

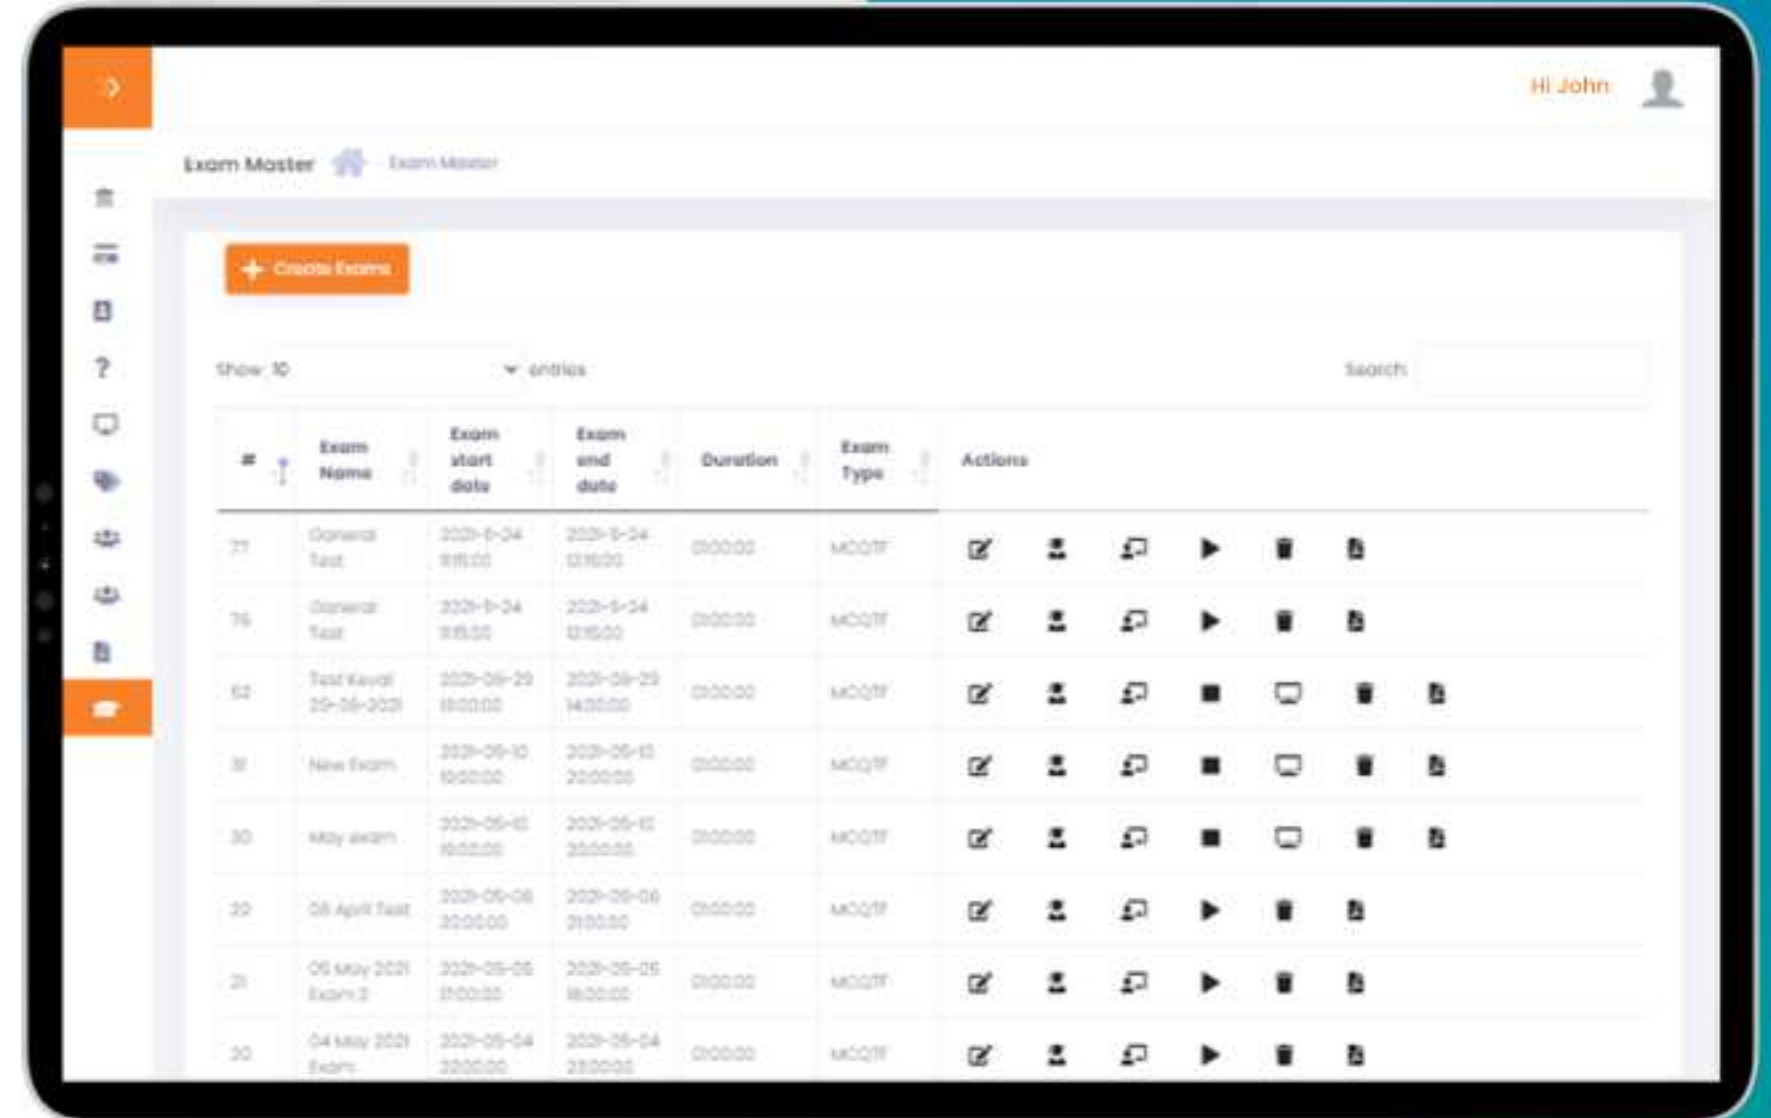

As per the folder, tests details of the students are shown here. Admin can make changes for the same.

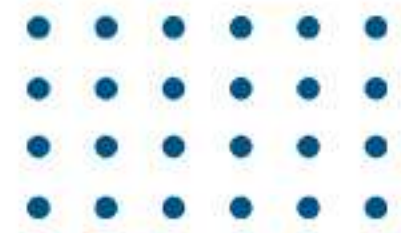

Exam master

A most important function of the admin panel, here admin can create a new exam for the students with some details like class name, student category, test and exam name, exam duration, exam type and the option of review, show result at the exit, which after completing exam student get their result instantly or not. The video proctoring option with the name is also available.

All scheduled exam list is also displayed here with all details and the admin can make changes in a particular exam list.

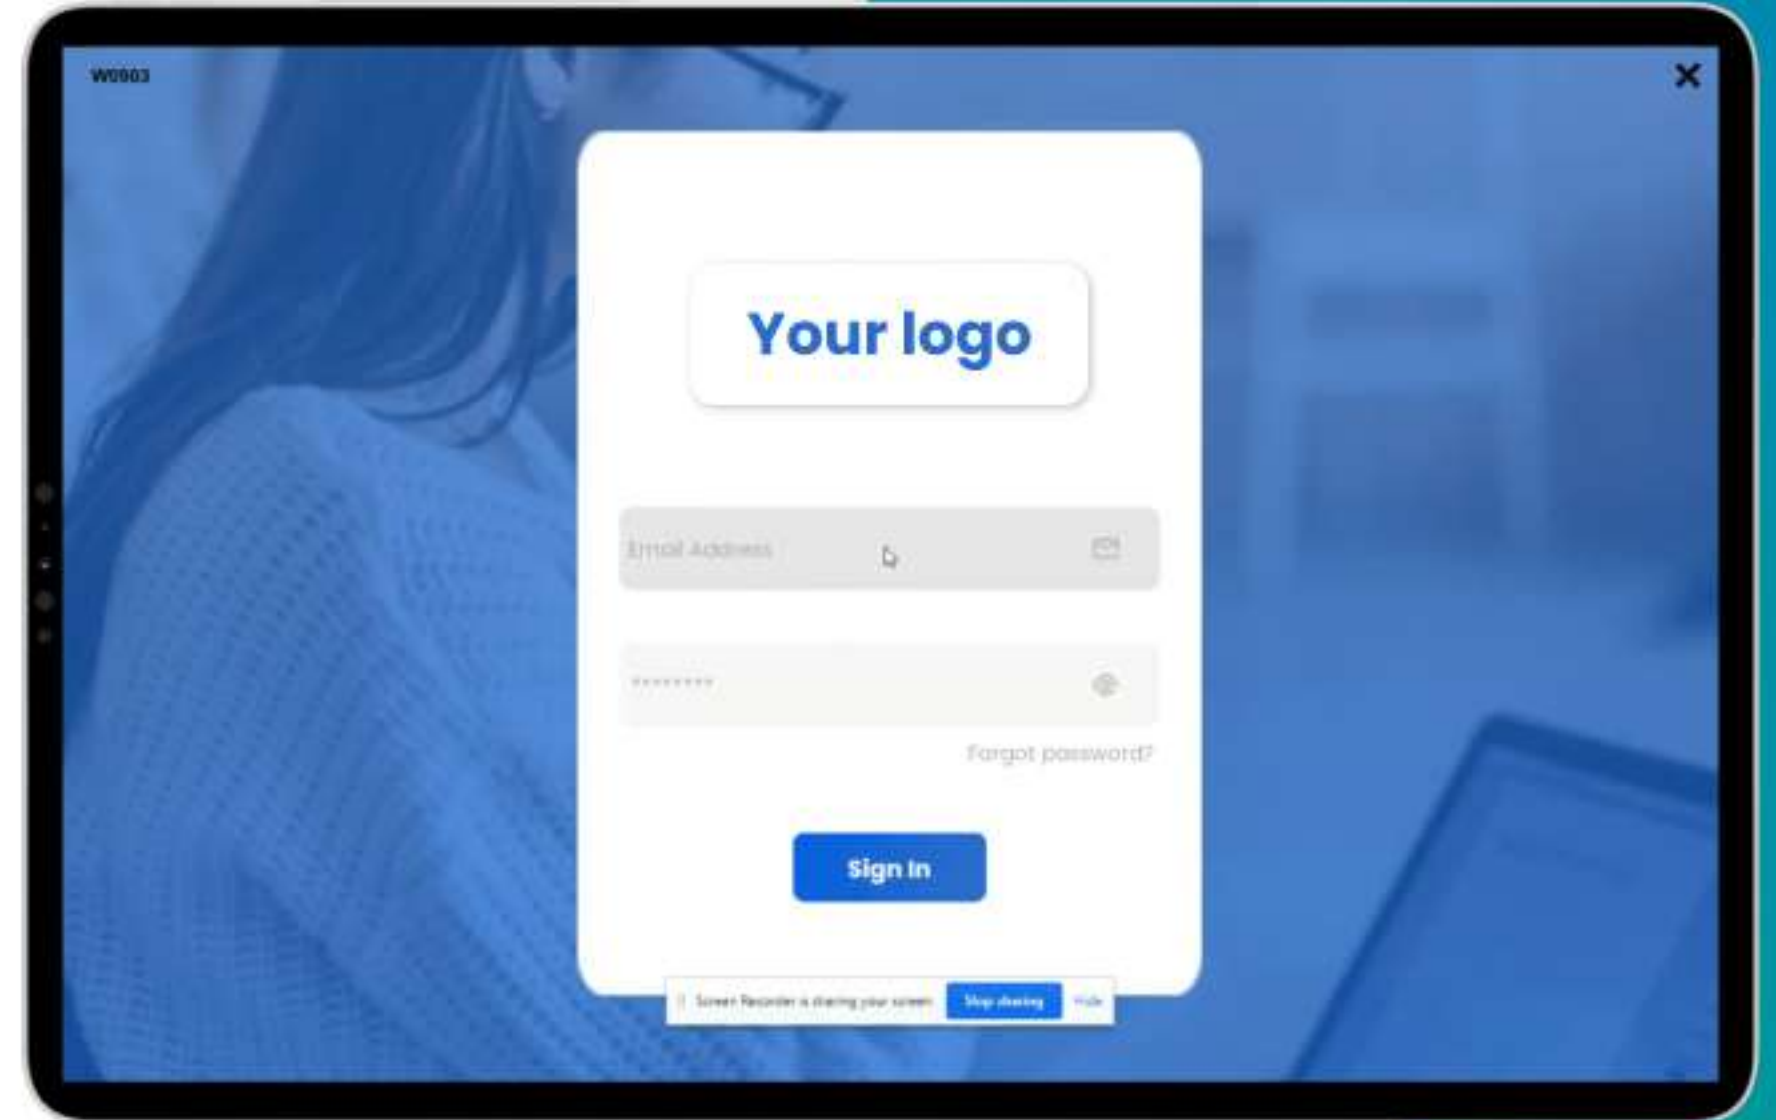

Student Panel

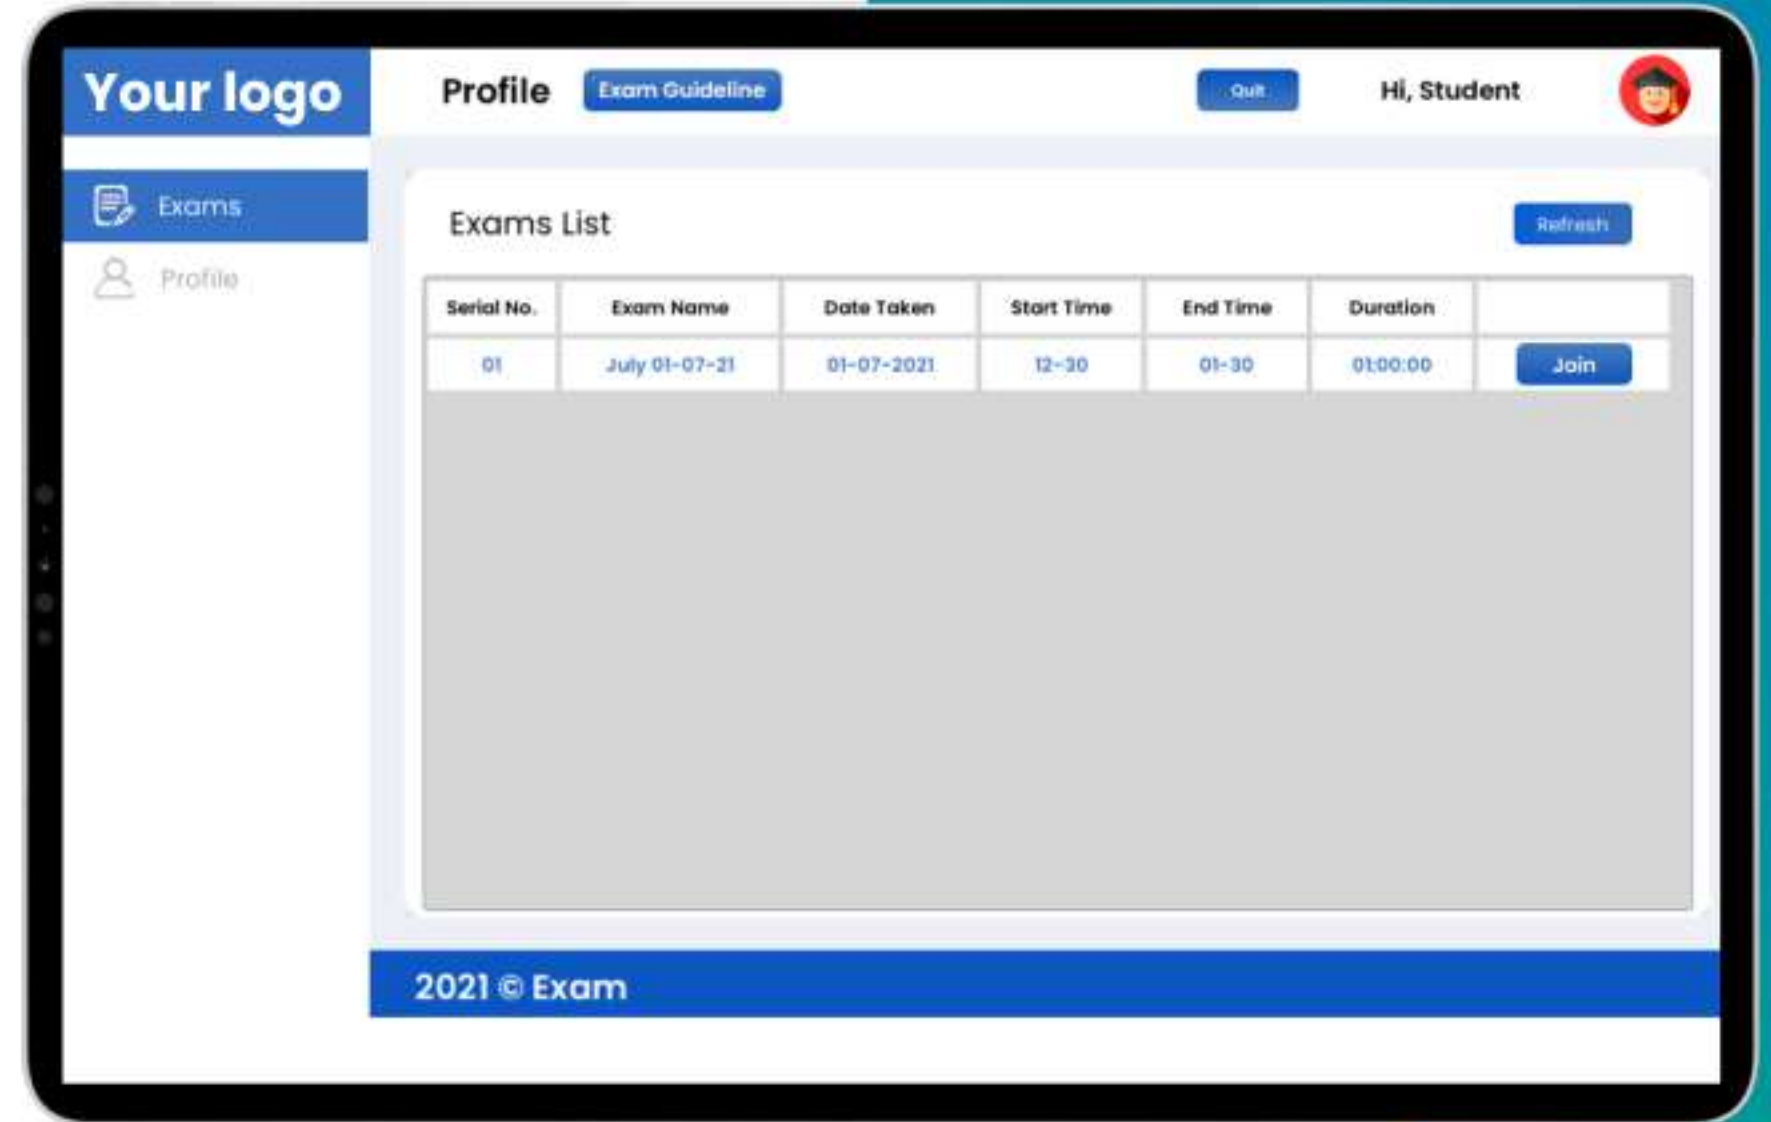

Welcome to the student exam panel.

Login yourself as a student with the detail provided by the institute.

Dashboard

This is how the student's exam dashboard looks like. From the profile, students see his/her personal details. From exam guidelines, students can see the rules and information of the exam. Student can start their exam by clicking on 'Join'.

Exam list

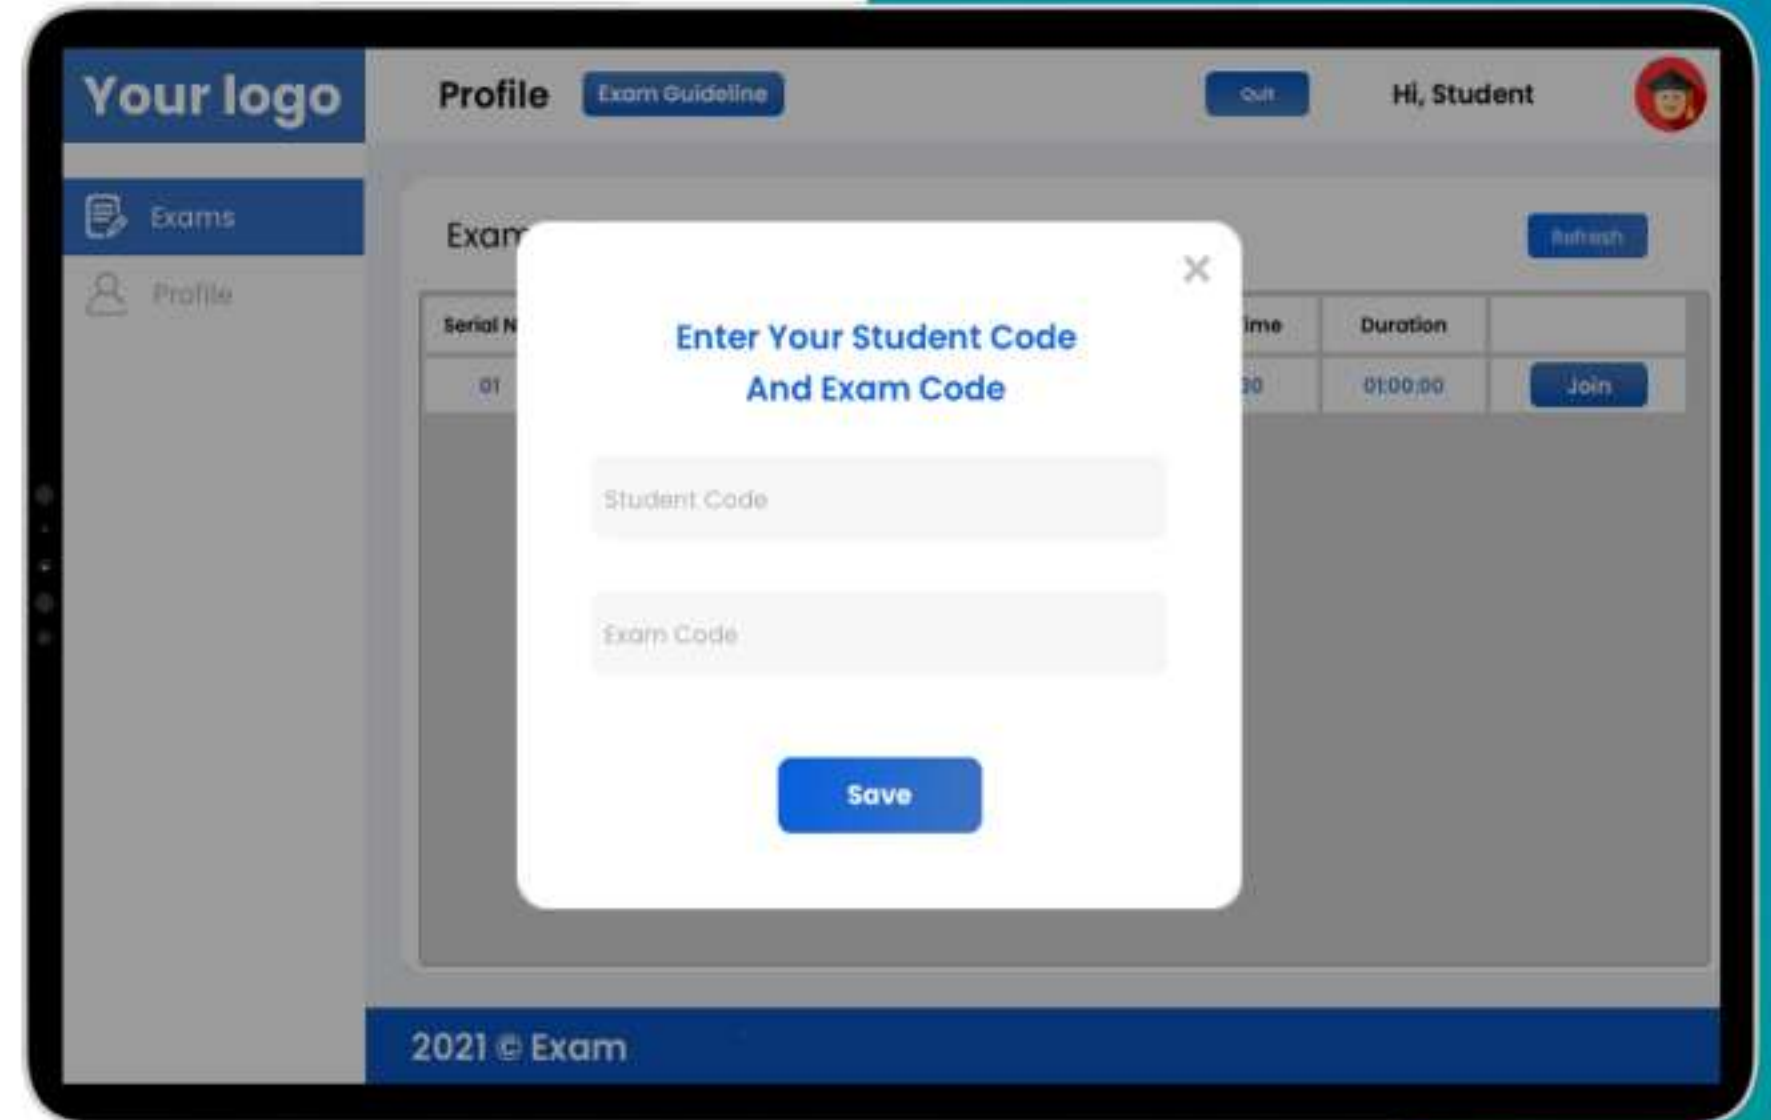

To join the exam, the student needs to add the student and exam code provided by the institute.

After clicking on the save button,

Grant access to your:

- Microphone
- Camera

This option will be displayed.

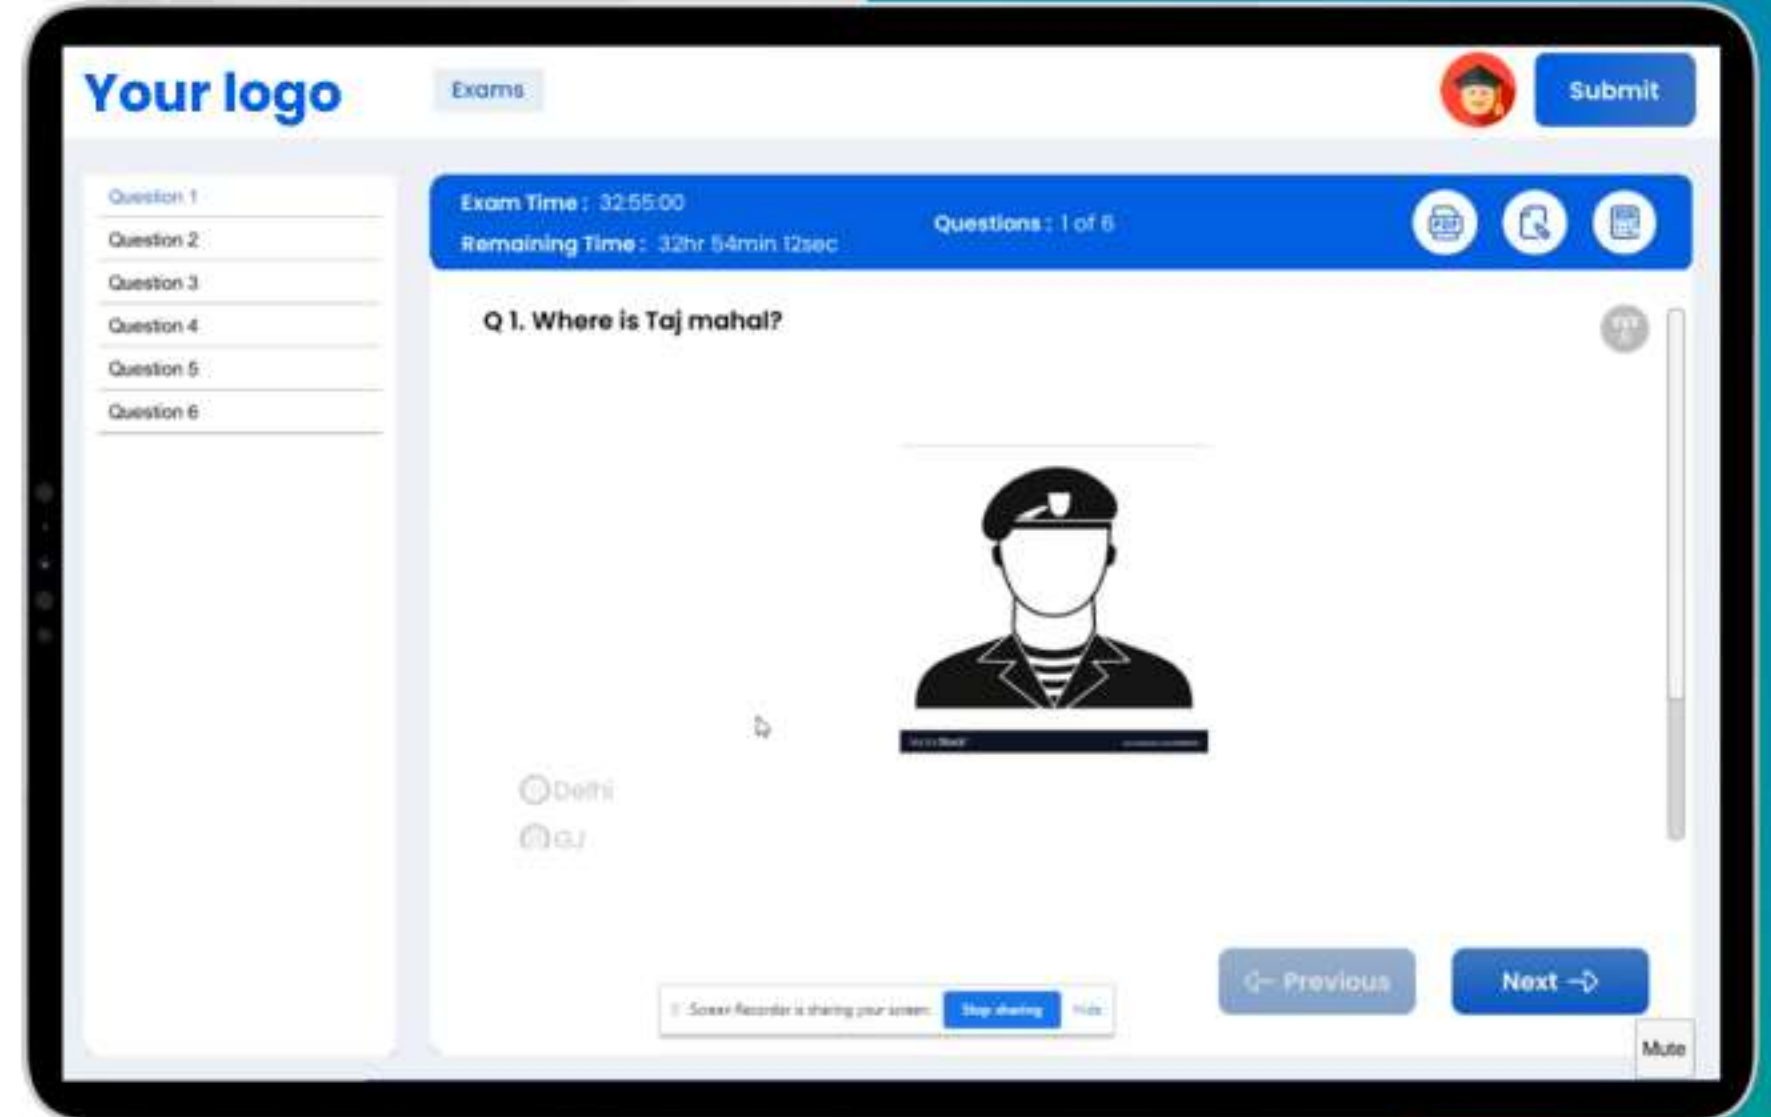

Exam

The exam starts with multiple questions.

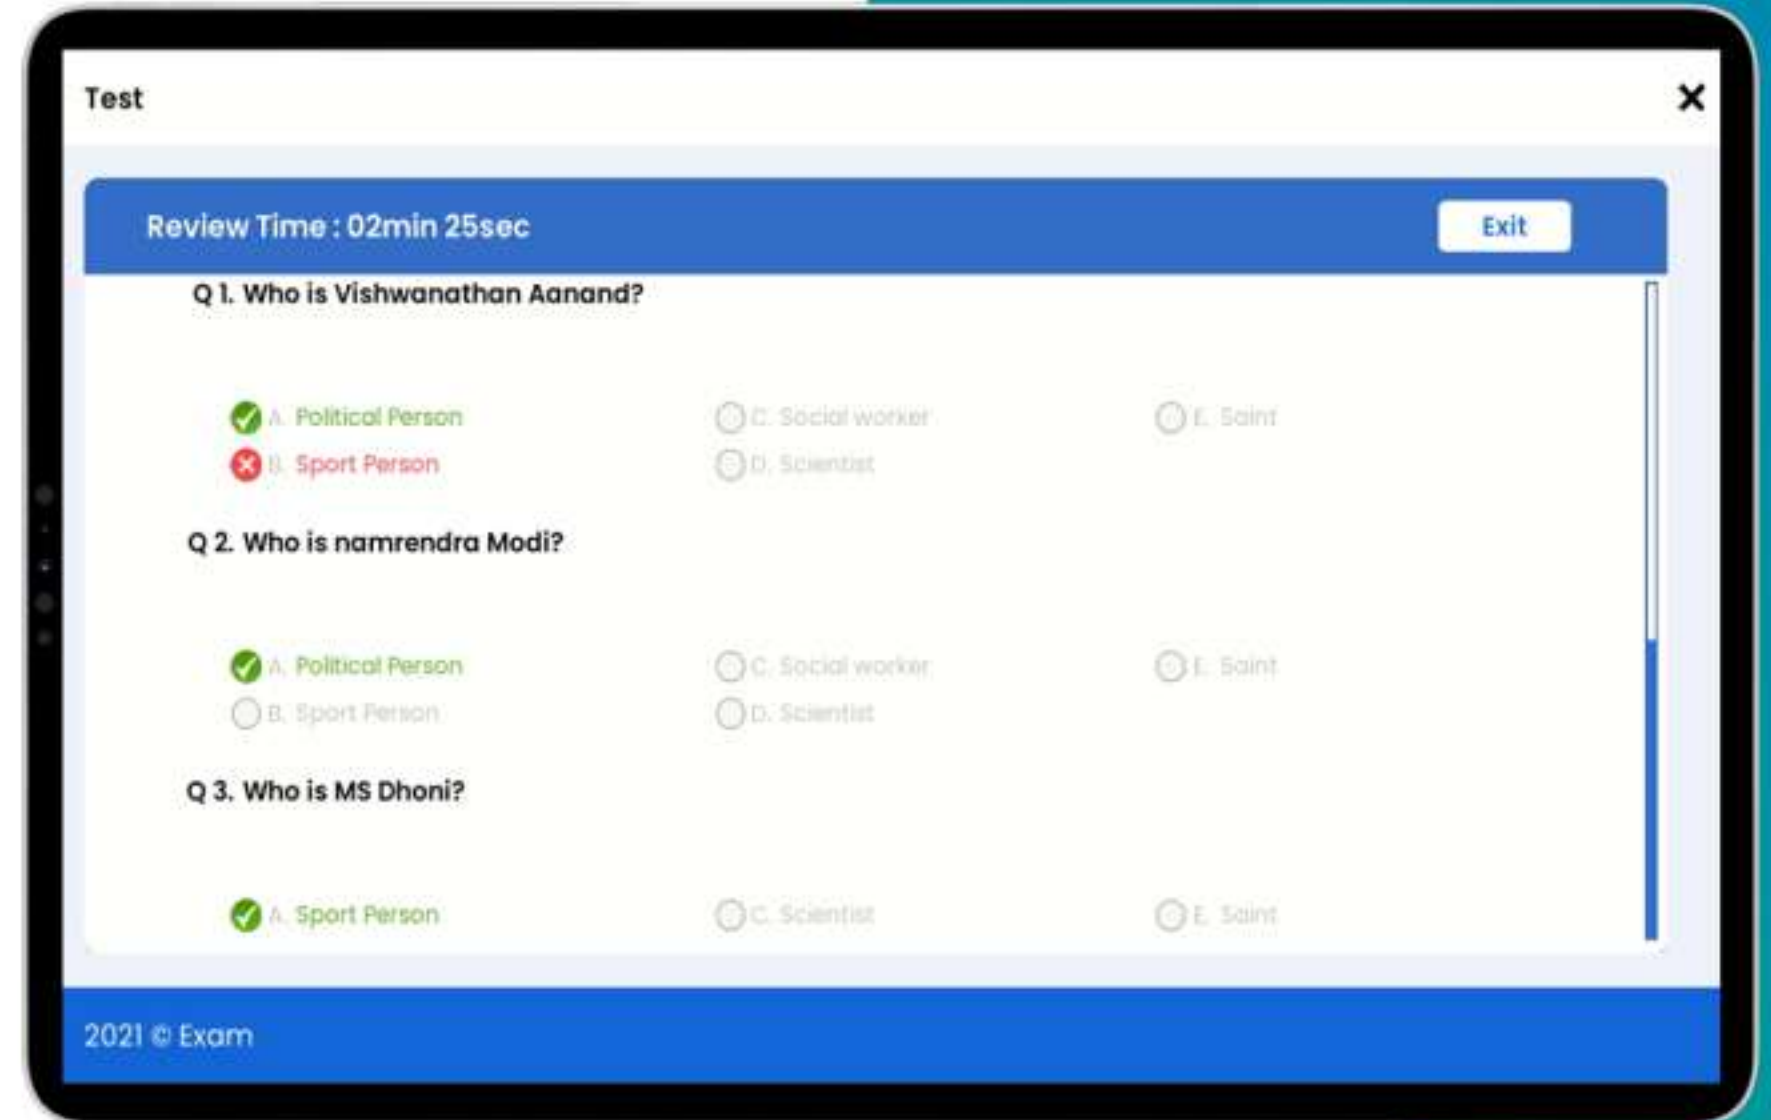

On the top, exam duration has been mentioned. The total number of questions is also mentioned. Students can also download the exam in pdf form, can add any type of note, can also have an option to use the calculator.

Simply, the student has to read the question and select the correct answer from the below option. By clicking on the next, another question will display and the process remains the same.

Test

After completing the exam, the students can see his/her exam review here with the total time taken by them.

The screenshot displays a 'Test' review window with a blue header bar. The header bar contains the text 'Review Time : 02min 25sec' on the left and an 'Exit' button on the right. Below the header, there are three questions, each with five multiple-choice options. The first question is 'Q 1. Who is Vishwanathan Anand?' with options A. Political Person (checked), B. Sport Person (marked with a red X), C. Social worker, D. Scientist, and E. Saint. The second question is 'Q 2. Who is namrendra Modi?' with options A. Political Person (checked), B. Sport Person, C. Social worker, D. Scientist, and E. Saint. The third question is 'Q 3. Who is MS Dhoni?' with options A. Sport Person (checked), B. Political Person, C. Scientist, and E. Saint. The footer of the window shows '2021 © Exam'.

Test

Review Time : 02min 25sec Exit
